. 39 per \$100. 00

Whence Came The Name Of Hooksett

There has been much speculation over the years as to the derivation of the name Hooksett. Reference is made to the name in early State papers even prior to the incorporation of the town in 1822.

The earliest known or recorded reference to this area by name was on the map of the first survey of the Merrimack valley made by one Thomas Gardner in 1638 as "hannasebos," supposed to be Gardners' interpretation of Annabesit Namasbesit, the latter presumably told him by a friendly Mohawk Indian acting as Gardners' guide

The interpretation of this name was supposed to mean "Little Place For Fish," as was Amoskeag supposed to mean "Great Place For Fish." Captain Wainwright in his journal record of May 12, 1726 speaks of a "fall" in the Merrimack being called "Annahookline," which name, he says, was bourn by a hill nearby.

"Isle au Hooks Pond" is mentioned in a survey made in 1746, believed to be what we now know as Head's pond. Chases' map of Chester and environs refers to one instance to the area as "Isle Hoxie Falls." "Hanno-Ko-Kees" is another name given as referring to a nearby hill which would undoubtedly mean to repre-

sent what we now call The Pinnacle.

"Isle Au hooksett Falls" is another name used in a petition to the New Hampshire Legislature requesting permission to operate a ferry in the area. "Onna Hookline" is another name applied to land surveys of the area as well as "Anna hooksett hill" apparently applied to another elevation of land in the vicinity.

Elmer Munson Hunt, well known writer of New Hampshire names and whence they came, has speculated that Hooksetts' geological formation could have suggested its name because of the existence of a large island in the Merrimack river above the falls being more or less in the shape of a Hook.

Hooksett is said to have been given to it by early fishermen whose baited hooks never failed to bring in a plentiful supply of fish in the area of the falls.

Many other theories have been advanced as to the derivation of the name which, so far as can be learned, have proved more legendary than fact. Thus it would appear that one could decide for himself as to how and when the name Hooksett was originally adopted as a search of many records and histories has failed to reveal specific data in this respect.

Hooksett Village, showing new evergreen
trees planted last year.

IN MEMORIAM

RICHARD HEMEON

This year's town report is dedicated to the memory of Richard Hemeon - Civil Defense Director for the Town of Hooksett for the last eight years. The Town of Hooksett will miss the tireless devotion, hard work and cooperation Mr. Hemeon always displayed in his many endeavors in behalf of the Town of Hooksett.

New Hampshire Annual Report Contest

This is to certify that

HOOKSETT

has been awarded second place
in Class IV for the year 1964 in recognition of
the excellence of its 1963 Annual Report

Town Warrant

TOWN WARRANT STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Hooksett in the County of Merrimack in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Hooksett Memorial School Auditorium, in said Hooksett on Tuesday, the ninth (9th) day of March, next at ten of the clock in the forenoon, to cast your ballots for Town Officers. Polls close at 6:30 P. M., action on remainder of warrant starts at 7:00 P. M.

1. To choose all necessary Town Officers for the year ensuing.
2. To vote on the question "Shall the Subdivision regulations as proposed by the Planning Board be adopted for this Town"? (On Town Ballot).
3. To see if the Town will vote to give a discount of two (2%) per cent on all taxes, except poll taxes, paid on or before the fifteenth (15th) day of July, and to grant the Selectmen authority to extend this date if unable to get tax rate from State Tax Commission as of July 1st.
4. To see if the Town will authorize the Selectmen to hire money in anticipation of 1965 taxes, to be repaid therefrom.
5. To hear the reports of the Selectmen, Town Treasurer, Agents, Auditors and Committees, or other officers heretofore chosen or appointed, and to pass any vote relating thereto.

6. To see if the Town will vote to raise and appropriate the sum of five hundred thirty-two dollars and eighty-three cents (\$532.83) the State to furnish three thousand five hundred fifty two dollars and seventeen cents (\$3,552.17), the same to be expended under the State Highway Department for Class V Town Road Assistance, or take any action thereto.

7. To see if the Town will vote to raise and appropriate two thousand (\$2,000.) dollars to purchase approximately three (3) acres of land adjacent to the Merrimack River and north of the Industrial Park from Robert Zapora. Said land is now under option to the Town for future use as a site for a Sewage Treatment Plant.

8. To see if the Town will vote to raise and appropriate a sum not to exceed eighteen thousand five hundred dollars (\$18,500.00) for the purchase of a new Class A 750 gallon per minute pumper for the Hooksett Village Fire Department. This sum to be borrowed on the credit of the Town and amortized over a period of six (6) years. Yearly payments to be withdrawn from the Capital Reserve Fund of the Town. (Inserted by Petition).

9. To see if the town will establish a town Conservation Commission as set forth in R.S.A. 36-A. (Inserted by Petition).

10. To see if the Town will vote to establish the position of a full time police officer. Said officer to be an adequately trained and experienced man to be appointed for a term and salary to be determined by the Chief of Police with the approval of the Board of Selectmen; and to raise and appropriate the sum of Six thousand (\$6,000.00) for this purpose for the year 1965.

11. To see if the Town will vote to authorize the Board of Selectmen to purchase and equip a Police Cruiser and to raise and appropriate the sum of Three thousand (\$3,000.00) Dollars, for this purpose.

12. To see if the Town will vote to amend its Ordinance relative to "New Streets and extending of Existing Streets" by rescinding Section 1-B of said Ordinance and substituting therefore a new Section 1-B as follows:

B. All new streets, or extensions of existing streets shall have a roadway thirty (30) feet in width, properly graded, with a base of 6" crushed gravel per State Specifications, Art. 221 and 12" gravel per State specifications Art. 210, and a wearing surface of 3" Type I-1 hot asphaltic concrete plant mixed per State specifications Art. 250. Shoulders must be graveled to a depth of not less than 8".

If curbing is installed, roadway shall be graveled and surfaced as provided above from curb to curb.

Slopes shall be graded and guard rails installed, where necessary, in accordance with State specifications.

All references to State specifications shall mean Standard Specifications for Road and Bridge Construction of New Hampshire Department of Public Works and Highways.

13. To see if the town will raise and appropriate the sum of five hundred dollars for the purpose of conducting a survey in the Hackett Hill area relative to the formation of a water precinct for the purpose of supplying water to the homes and businesses in that area and for publication of a report covering the same. (Inserted by Petition).

14. That the members at large of the budget committee be elected by Australian or secret ballot by majority vote at the annual election. That the present members serve out their terms. That three members at large be elected annually as term of present members expire so that all members at large would be elected by ballot by the time three elections are held. That all candidates be taxpayers and legal voters. That vacancies be filled by majority of budget committee from interested nominees who received next highest number of votes at last election. These appointees to serve until next election. (Inserted by Petition).

15. To see if the Town will vote to adopt the Australian Ballot System as a method of Voting for Town Officers in lieu of the NON-PARTISAN Ballot System presently in use; To take effect at the MARCH 8, 1966 Town Meeting. (Inserted by Petition).

16. That all members of the following committees or councils be elected by Australian or secret ballot at annual election: Industrial Advisory Council, Planning Board, and Board of Adjustment. That the Industrial Advisory Council be increased to twelve (12) members. That the Planning Board be increased to nine members. That the Board of Adjustment be increased to six members, so that one third of each of these groups could be elected annually. That present members be allowed to choose which would be up for re-election in one year, in two years, and in three years. If agreement could not be reached, term of office could be determined by drawing. If vacancies occur, they be filled by person getting next highest total of votes in previous election. Terms of appointees to last until next regular election. (Inserted by petition).

17. OFFICE BUILDING: An appropriation of \$2000. be made to purchase, excavate for, and install a fuel tank of approximately 6830 gallon capacity. Excavation and installation bids shall be separate. At least five bidders, including all Hooksett installers or suppliers shall be asked to bid. Lowest responsible bidder to be awarded bids. Committee to pass on bids. All monies to be accounted for and that not used returned to Town Treasurer. (Inserted by Petition).

18. VILLAGE FIRE DEPARTMENT: An appropriation of \$500.00 be made to move and install the 2000 gallon fuel tank from Village School. Excavation and installation to be bid on separately. Bids shall be asked from at least five bidders, including all Hooksett installers or suppliers. Tank shall be installed underground, if possible. Tank should be anchored to concrete if buried underground. (Inserted by Petition).

19. SOUTH HOOKSETT FIRE DEPARTMENT: That an appropriation of \$100.00 be made to move one or more of the tanks from Town Office Building or Village Fire Department, to the South Hooksett Fire Dept. combining it with existing tank so that a fuel capacity of 550 gallons or more would be available. (Inserted by Petition).

20. FUEL: All town buildings not having bulk fuel tank shall lump their fuel requirements together and shall advertise for bids in the Union Leader and to at least five oil distributors, such as Manchester Coal and Oil, Heat Oil Petroleum Products, etc., including all Hooksett fuel dealers. Bids are for a yearly basis for about so many gallons at so much a gallon. Lowest responsible bidder shall receive award. He shall furnish printed meter ticket for each delivery showing building delivery is made to. Committee on fuel to pass on bids. With smallest tank capacity to be 550 gallons up to 2500 gallons, bidding system should reduce fuel bill considerably. (Inserted by Petition).

21. BIDS-FUEL: Fuel bids for all town buildings having bulk tanks would be combined with any school building having said tank. Bids shall be advertised for in the Union Leader plus to at least five terminal tank companies such as Sprague of Portsmouth, Metropolitan of Boston, Union Oil of Boston, etc. Separate bids for #4 and #2 oil shall be asked for. Bids to be awarded to lowest bidder on #2 and #4 oil. Bidder shall furnish separate invoices for each building so it can be charged for fuel used. Committee shall pass on bids. (Inserted by Petition).

22. COMMITTEE: It is moved that committee on fuel and heating be extended for another year to follow up recommendations made and that its authority be enlarged to include possible savings in other types of construction, such as plumbing, insulation, etc. That re-

port as given by committee be printed in town report. (Inserted by Petition).

23. COMMITTEE: That any member of committee on plumbing, heating, etc., who resigns would be replaced by interested person or persons at town meeting. Also that chairman of committee be authorized to appoint new members between meeting subject to the approval of a majority of the remaining members of the committee. (Inserted by Petition).

24. TOWN OFFICE BUILDING: That an appropriation of \$2400.00 be made to change over present system to a zoned forced hot water system with nine zones using present boiler and as much radiation as can be used. Radiation for entire building to be figured by qualified person chosen by the committee. Specification would be set up and at least five bids shall be called for including all interested Hooksett installers and suppliers. Committee to award bid to lowest qualified bidder. Monies to be accounted for, all unused monies to be returned to town treasurer. (Inserted by Petition).

25. LIBRARY: An appropriation of \$500.00 to be made to replace present heating system with a forced hot water system, operating off town office building. At least five bidders shall be asked to bid, including all Hooksett installers or suppliers. Committee to award bid to lowest responsible bidder. All monies to be accounted for, all unused monies to be returned to town Treasurer. (Inserted by Petition).

26. HIGHWAY GARAGE: An appropriation of \$200.00 to be made to extend duct work in heated garage area, extending hot air outlet in office, installing hot air inlets in stock room and running cold air return to stock room and office. Hot and cold air runs in bath will have to be delayed till it is isolated from furnace room. At least five bids to be called for including any interested Hooksett installer or supplier. (Inserted by Petition).

27. To see if the voters will instruct the Moderator not to ask for the Vote on any Motion made and seconded to Pass Over or Adopt until all persons present have been heard and all discussion ended. (Inserted by Petition).

28. To see if the Town will vote to accept the Budget, as submitted by the Budget Committee, or take any other action in relation thereto.

Given under our hands and seal, this second day of February, in the year of our Lord nineteen hundred and sixty-five.

Abstract of Action Taken on Articles in Warrant

MARCH 10, 1964 TOWN MEETING

Business session was called to order at 7 P.M. by Assistant Moderator Wilfred Buck who had been previously sworn in to act in the capacity of Moderator. Each Article was read and acted upon separately.

ARTICLE 1

Officers chosen in open meeting not on the ballot: Surveyors of Wood and Lumber: Stanley Spiewack, Alfred Rousseau and William Courser. Weighers of Commodities: Homer Enderson, Rutger Broek, Leslie M. Pike, John Bates, Roland Casey, James Gilbert and Edward O'Connor. Fence Viewers: Melvin Johnson, George Cook and Frederick Jackson. Sworn

ARTICLES 2, 3, & 4

Having to do with (2) voting delegates to Constitutional Convention, (3) voting on Sweepstake question and (4) voting as to whether Hooksett will maintain its existing Municipal Court were on separate ballot cast during the polling period and were not germane to articles taken up in the business session of this meeting.

ARTICLE 5

Voted to allow a discount of two (2%) per cent on all taxes, except poll taxes, paid on or before the fifteenth (15th) day of July, and to grant the Selectmen authority to extend this date if unable to get tax rate from State Tax Commission as of July 1st.

ARTICLE 6

Voted to authorize the Selectmen to hire money in anticipation of 1964 taxes, to be repaid therefrom.

ARTICLE 7

William Miller raised the question on whether the town was enforcing the regulation regarding issuing of permits for installing oil burners and fees for same. Fire Chief Law responded by saying the regulations were being complied with by his department. On the subject of fees, the Selectmen advised that since no fee is required, no record was included in the Town Report. Melvin Johnson then moved to adopt this article having to do with printed reports of Selectmen, Treasurer and other officers and committees; seconded and so voted.

ARTICLE 8

Upon motion of Harold Murray, duly seconded, it was voted that the town raise and appropriate the sum of five hundred thirty seven dollars and seventy-four cents (\$537.74), the State to furnish three thousand five hundred eight-four dollars and ninety-four cents (\$3,584.94) the same to be expended under the State Highway Department for Class V Town Road Assistance.

ARTICLE 9

To see if the Town will vote to raise and appropriate a sum not to exceed sixteen thousand eight hundred dollars (\$16,800.00) for the purchase of a new Class A 750 gallon per minute pumper for the South Hooksett Fire Department. This sum to be borrowed on the credit of the Town and amortized over a period of six (6) years. Yearly payments to be withdrawn from the Capital Reserve Fund of the Town.

ARTICLE 9

John Luckers moved and motion seconded, that this article be passed over in favor of a later article. Moderator immediately put the question to a vote and declared motion lost on voice vote. It was then moved by William Miller, duly seconded, to adopt the article in question: followed by debate and remarks of several voters, Moderator asked for standing vote. The result, 133 for and 4 against and the article was declared adopted by the Moderator.

ARTICLE 10

Upon motion of Adelard Gagnon, duly seconded, it was voted to adopt this article which read as follows: To see if the Town will vote to authorize its Board of Selectmen to file on behalf of the Town, an application in form and manner required by the United States, and in conformity with Public Law 560, 83rd Congress, as amended, and to enter into such negotiations and do whatever else may be required for an advance, in an amount not to exceed sixty-one thousand dollars (\$61,000.00) to be made by the United States to the Town of Hooksett to finance the cost of engineering, surveying, design and plans for construction drawings and specifications for sewers, interceptors, sewage disposal facilities and appurtenant works, as laid out in the "Report on the Proposed Interceptors, Sewer Extensions and Sewage Treatment Facilities for the Town of Hooksett, New Hampshire," and to furnish the United States with such other documents and information and to take such other action as may be required for this purpose.

ARTICLE 11

Richard Hemeon moved to adopt this article having to do with acceptance of the budget, seconded and so voted.

John Luckers inquired as to whether he was entitled to sit in at the meetings of the Central Hooksett Water Precinct. Moderator called Mr. Luckers out of order in bringing up this subject under this article, but referred him to an official of the Precinct in question for his answer. Mr. Luckers challenged the Moderator's conduct of the meeting in not permitting debate. Moderator stated that debate is not permitted on motions to pass over or to lay on the table and produced a copy of Robert's Rules of Order as proof. He further stated after persistent interruptions from Mr. Luckers that said Luckers had dominated the proceedings at the School District meeting on the preceding Saturday and would not be permitted to do so at this meeting. After further challenges, the Moderator advised the complainant to refer his challenge to the Attorney-General, and ruled him out of order in making further remarks. After several additional interruptions, the Moderator threatened to have Mr. Luckers removed from the meeting.

ARTICLE 12

Having to do with an article proposing an ordinance relative to burning rubbish: A motion by Frederick Jackson, duly seconded, called for passing over this article, and it was so voted.

ARTICLE 13

Any and all materials, of which more than \$200.00 worth is bought in one year by any department, precinct, or district of the Town of Hooksett, shall be advertised for bids, in the Manchester Union Leader, and, whenever possible, by five (5) suppliers of materials involved, in Manchester, Concord and especially in Hooksett. Whenever possible, materials of like nature shall be bid on separately.

ARTICLE 13 - ACTION

Leon Boisvert moved to pass over, seconded and so voted.

ARTICLE 14

All vehicles, including trucks, tractors, graders, etc., shall be advertised for bids in Manchester Paper. Specifications set up shall include any and all extras or options. Bids shall be sent to at least five (5) potential bidders.

ACTION

Arthur Sanborn moved to pass over, seconded and Moderator declared motion supported on voice vote. (Reconsidered, following vote on Article 15.)

ARTICLE 15

Annual fuel supply of any and all buildings, able to take bulk shipments, shall be lumped together and advertised for bids. All buildings using 2,500 gallons of oil or more shall have bulk tanks installed, if feasible. All buildings that can be converted to burn #4 Fuel Oil shall be converted if it can be done at a reasonable cost.

ACTION

Moved by Roland Levesque to postpone indefinitely, seconded. Moderator ruled this motion debatable. After debate, the motion to pass over was defeated. Remarks by Joseph Heroux indicating he felt there was a lack of opportunity to properly debate various articles. John Luckers then moved the article to be adopted with an amendment which he offered in writing - "that a committee of five (5) be appointed by nomination from the floor, to study feasibility of bulk tank installation and setting up bidding system." Motion seconded. Selectmen suggested that a report of the committee be made and finished in time to be included in the next years' Town Report and there appeared no objection on the part of the maker of the motion, following which it was voted to adopt the article as amended and the committee comprised the following: John Luckers, Roger Hebert, Albert Sante, Robert Letendre and Marshall Rice.

At this point Mr. Luckers again protested the lack of debate and the Moderator advised that any article passed over could be reconsidered.

George Lavallee then moved to reconsider Article 14. A standing vote was taken and lacking the necessary 2/3 majority was defeated on a vote of yes; sixty-five (65) and no; fifty-six (56). Moderator declared motion defeated and the action was not challenged.

ARTICLE 16

Called for assessment of property to be printed every five (5) years in Town Warrant or separately, using format used by State of New Hampshire in reassessing property in 1956.

ACTION

John Luckers moved this article be adopted intimating it would be difficult to learn whether anyone's taxes had been lowered without the assessments being printed. Several spoke against this article on account of the expense entailed. Moderator sought the opinion of the Chairman of the Budget Committee on the legality of this article which was without appropriation. Chairman Leon Boisvert gave his opinion that no legal action could be taken lacking an appropriation. Selectmen advised all assessments were maintained in their office which was available five (5) days a week. Following further discussion, Adelard Gagnon moved to pass over this article. Seconded and it was so voted.

ARTICLE 17

Reading to the effect that no equipment owned by the Town of Hooksett, shall be used for or on private property, except for churches or community property.

Adelard Gagnon moved to pass over this article, seconded and so voted.

Robert Robinson given the floor in connection with a public announcement regarding the Hooksett post office. (No action)

Upon motion of Oscar Morin, Sr., seconded, Moderator called the business session adjourned at 8 p.m.

Total number of ballots cast for Town Officers 808

For Selectmen for three years -	Wilfred D. Carrier	127 votes
	James G. Follansbee	476 votes
	Ray F. Langer	165 votes
For Town Clerk -	Charles R. Hardy	764 votes
For Tax Collector -	Sarah M. Hardy	763 votes
For Treasurer -	Dorothy M. Squire	724 votes
For Road Agent -	Arthur Laroche	177 votes
	Bernard M. Zapora	588 votes
For Overseer of Public Welfare	Charles E. Woodbury	732 votes

Selectmen's Report

January 1, 1965

To All Residents of the Town of Hooksett:

The year 1964 has drawn to a close and with its passing, your Board of Selectmen respectfully submit herewith, their annual report concerning the government of this Town for the past twelve months.

1964, was not an uneventful year in the record books of this Town. It can be designated as a year of growth and progress. Commercial and residential real estate evaluations on an adjusted basis passed the sixteen million dollar figure for the first time and the Town and School Budget exceeded one half million dollars. In spite of a substantial increase in the Town and School Budget it was possible to reduce the tax rate to a small extent, due largely to the tremendous increase in evaluation of residential and commercial property.

The articles of the Town Warrant that were voted in the affirmative at the 1964 Town Meeting have been implemented by the Selectmen.

Article 9 of the 1964 Warrant, resulted in the purchase of a new fire engine for the use of the South Hooksett Fire Department. This is indeed an excellent piece of equipment and it should be in everyone's interest to view it personally. The Selectmen have no doubt this addition will serve only to enhance the enviable record of the South Hooksett Fire Department. An article will be introduced in the 1965 Warrant to purchase a piece of similar equipment for the Village Department.

Article 10, authorizing the Board of Selectmen to apply to the Federal Government for the loan of funds necessary to proceed with working drawings relative to the construction of a Hooksett sewer system has been acted upon and the funds have been made available. One of the conditions necessary in granting the loan was that the town be in possession of, or have under a sales option an area of land suitable to locate a plant for the treatment of sewage.

The Selectmen were able to negotiate such an option and an article will appear in this year's warrant authorizing the purchase of the same. We expect that the drawings covering the entire system will be complete in 1965.

All boards, commissions and departments have in the past year functioned smoothly and harmony with the efforts of the Board of Selectmen. It is the considered opinion of this Board of Selectmen, that without the unselfish, non-partisan effort of these fine citizens who comprise these various boards and commissions, the progress which we have enjoyed in this Town would not have been possible. In the crucial years ahead, the continued and increasing efforts of citizens such as those mentioned above will be of utmost importance in the orderly development and administration of this town.

It is evident that the availability of a public water supply is a decided factor in the growth and development of this town, we would therefore commend the officers of our two water precincts for the excellent manner in which they have handled the affairs of their respective precincts in making available the water that is so essential to the development of residential and commercial real estate.

An article has been inserted in the 1965 warrant making funds available for the establishment of an additional water precinct in the Hackett Hill area. Should this article be voted upon in the affirmative it is possible that another long step will be taken in the economic development of this town.

As we prepare to close this report may we take this opportunity to once again extend our thanks and appreciation to the many officials of this town, both elected and appointed, who have done so much to make 1964 a record of success and progress.

Sincerely yours,

LESLIE M. PIKE
OSCAR MORIN, JR.
JAMES G. FOLLANSBEE
Board of Selectmen

Report Of The Budget Committee

GENERAL COMMENTS

With the Town of Hooksett showing a steady increase in population and property year after year which necessitates increases in spending, a total of seven meetings were required for the preparation of the 1965 budgets. At the first meeting held on January 12th the Selectmen and other department heads submitted their reports of expenditures and also their requirements for 1965. The second meeting was held on January 19th and the Committee heard a report of expenditures and requirements from the two Water Precincts. The three members of the School Board presented their budget at the third meeting on Jan. 26th. The open or public meeting was held on February 3rd at the school auditorium. It was gratifying to see an increase in attendance over previous years. Total attendance was counted at 81 persons, an increase of approximately 40% over previous years. Due to the continued increase in work load again this year, three additional closed meetings were required before the final budgets could be completed. One of these last meetings was held at the Underhill School so that the Committee could observe firsthand some of the items being requested.

The total of the budget approved shows an increase of \$55, - 504.62 over 1964. Of this increase \$32,574.53 will appear in the school budget and \$22,930.09 in the town budget.

TOWN BUDGET

The increases of most departments are in proportion with the annual growth and do not seem to require an explanation. Other increases which are of a more substantial amount, the Committee will attempt to explain below.

Parks and Playgrounds. The Parks and Playgrounds appropriation request for \$11,395.20 was reduced to \$5,225.00. The Committee recommended last year that a long range program should be initiated for the maintenance and improvement of our parks and playgrounds. Going along with this recommendation an increase of \$2,725.00 was allowed which is over 100% more than last year. This will allow for the construction of two Little League baseball fields this year along with other improvements to our present playgrounds. It is felt that other proposals should be deferred until future years.

Article #7. This article calling for an appropriation of \$2,000.00 for the purchase of 3 acres of land adjacent to the Merrimack Riv-

er was approved. This proposed land purchase is slated to be used to locate the town Sewage Treatment Plant when the construction of a town sewage system is approved. Since Article #10 of the 1962 Town Warrant and Article #10 of the 1964 Town Warrant were voted in the affirmative the Committee felt that it was the desire of the voters that this article be approved.

Article #8. In a continuing effort to upgrade our fire department and also in keeping with our recommendation of the previous year, this article pertaining to the purchase of a new fire apparatus for the Village station was approved. However, after a close examination of the proposed bids and specifications the Committee approved a total of \$17,500.00 for this purchase, a decrease of \$1, - 000.00 from what is asked for in the article. It is our belief that the total approved is sufficient for this purchase as it is approximately the same as that procured for the South Hooksett station last year.

Articles #10 and #11. These articles which call for an appropriation of \$9,000.00 and which would permit Police Chief Lindsey H. Rice to hire a qualified full time police officer and also the purchase of a police cruiser were unanimously approved by the Committee.

With the Town growing at a very rapid pace it is our feeling that Hooksett can no longer operate its police department with part-time officers alone. These conscientious and dedicated people are now spending more and more time from their regular place of employment to answer police emergencies and are thereby neglecting their primary source of income which is a necessity to them and their families.

The Committee made a comparison of the operating budgets of other towns of comparable size within the State of New Hampshire. We found that the budget requirements of most of these towns was approximately 80% higher than Hooksett, the average being about \$17,500.00 as compared with \$3,000.00 for Hooksett. With all of this information available it leaves little doubt that this proposal needs implementation.

Article #13. After having heard a report of the water problems in the Hackett Hill section of the Town and remembering that the two Water Precincts now in existence were originated from a survey authorized by an appropriation, this article was unanimously approved.

Articles #17, #18, #19, #24, #25 and #26. Since these articles are all inter-related our comments are submitted as follows:

(a) After reading the report of this Committee and making a check of the information given we find that much of this information is incorrect.

(b) After making a check with the department heads affected by these articles we find that at no time were these people approached or asked to comment as to the need or feasibility of these proposals.

(c) On checking with the Board of Selectmen we find that at no time during the year were they asked to comment or to furnish helpful information which was available in their files.

(d) Our own research into the possible money savings by the implementation of any or all of these articles showed that if a savings could be derived it would be of such a minor amount that it did not warrant an expenditure of \$5,700.00

The Committee felt that it had no alternative but to disapprove all of these articles.

WATER PRECINCTS:

A review of the Water Precinct budgets shows that an increase of \$1,097.75 is being asked by the Village Precinct and an increase of \$7,876.00 by the Central Precinct. With Article #7 of the Central Precinct calling for a transfer of \$5,000.00 from Capital Reserve Fund to regular appropriations it is felt that no substantial increase in precinct tax should result.

A detailed study of the 1964 expenditures and also of the requirements for 1965 shows that the increase in each category is very small and seems to be warranted. The Committee is pleased to see that a step-up in the installation of meters is being contemplated. It is our opinion that metered service is the only fair and proper way to charge users for water. It is believed that this should also result in a conservation of water consumption within each precinct.

The Committee is pleased to see that the annual audit of each Precinct is now being conducted by the State of New Hampshire, Division of Municipal Accounting. It is felt that the adoption of this suggestion will greatly benefit both precincts towards establishing proper accounting records from recommendations made with each audit report.

Article #6 Village Precinct. This article calling for an expenditure of \$33,000.00 was approved by the Committee. A report from the Commissioners and the Superintendent leaves no doubt that the present pumping equipment is not large enough to supply the increasing demand for water by the users within the precinct, and with a steady increase of users there seems to be no alternative but to replace the now antiquated equipment.

SCHOOL DISTRICT

The School budget as presented by the School Board showed an increase of \$41,223.13 over 1964-65. After a careful study of each item the Committee felt it necessary to decrease this amount by \$8,650.60, leaving a net increase for 1965-66 of \$32,574.53. Most of the decreases are minor amounts and do not seem to require an explanation. Other decreases include salaries \$2,300.00, painting \$3,200.00 and repairs \$1,124.25. Action on two articles in the warrant are explained below.

Article #2. This article which is related to and is part of Articles #17, #18, #19, #24, #25 and #26 of the Town Warrant was also disapproved for reasons submitted under the Town section of this report.

Article #8. This article pertaining to an addition to the Underhill School of six classrooms and an auditorium 50 by 90 feet was approved. From information at our disposal we believe that the School District can operate with the existing facilities for the 1965-66 session, however, since it is felt that any construction should be done during the summer season and that delaying construction for another year could increase the cost it is our opinion that the approval of this article at this time is in the best interest of the Town. The Committee gave approval to proposal #2 which includes rest room facilities within the auditorium and which is approximately \$15,000.00 more than proposal #1. The report of the School Study Committee was taken into consideration in making our decision.

In closing our report we wish to express our gratitude to all the heads of the various town departments and especially to Mr. Oscar Morin, Jr., Selectman and to Mr. Arthur B. Sanborn of the School Board. With appropriations increasing annually the Committee could not accomplish its duties without the help of these dedicated servants. It is our hope that all the decisions required of us have been fair and in the best interest of the Town of Hooksett.

Bulk Fuel Tank Committee Report

REPORT ON TANKS -- OFFICE BUILDING

Bulk fuel tank can be installed in rear of building without too many problems. Excavation and installation to be bid on separately. Tank to be placed underground.

VILLAGE FIRE DEPARTMENT

It is recommended that 2000 gallon tank from Village School be placed at Village Fire Dept., underground if possible; above if not. This will enable this building, along with Highway Garage, South Hooksett Fire Dept., and other town or precinct buildings to buy their fuel as a group, taking advantage of lower fuel cost available with larger tanks under a bidding system.

HIGHWAY DEPARTMENT

This building has 2500 gallon tank and can be combined with all other buildings not having bulk tank for purchase of fuel under a bidding system.

SOUTH HOOKSETT FIRE DEPARTMENT

It is recommended that extra tank or tanks from Town Office building be added to existing tank so that a total capacity of 550 gallons or more would enable this building along with others not having bulk tank to get a lower price on fuel requirements under a bidding system.

WATER PRECINCT

It is recommended that extra tank from Office Building or Village Fire Dept., be saved for this building so that it would be able to join with other departments in future when or if a heating system is installed. It is suggested that any future work done be advertised for bids and specifications be set up so all bidders would bid on same type of system. Committee would be available to set up specs or to check them.

REPORT ON HEATING -- TOWN OFFICE BUILDING

It is recommended that the present steam system in Town Office Building be converted to a zoned, forced hot water system, using present boiler and as much of present radiation as possible.

Some areas such as selectman's office and courtroom are used for only a few hours a week, the conference room might not be used for weeks, yet at present these areas are heated 24 hours a day. Also, in order to get enough heat in some of the offices in use daily, radiation has to be shut off. Some areas have way too much radiation; others no where near enough. Present boiler is more than ample to heat entire town office building, including future second floor and Library. It is recommended that at least 9 zones be installed: One for Selectmen's and Treasurer's office, one for conference room, one for tax collector's office and waiting room, one for entire hall, one for courtroom, one for Judge's chamber, Police Chief's office and Police Department, one for cell block, one for future second floor, and one for library. This would eliminate temperature problem and would save about \$500.00 over the present fuel bill for the library and town office building, which is now \$1200.00 a year. These changes would pay for themselves in less than five years. It is recommended that new ceiling area be insulated as soon as possible and that openings be made from boiler room so that floor would be heated in entire building at no cost.

LIBRARY

A yearly fuel bill of \$427.00 for an 18 x 18 building in use only four hours a week is ridiculous. It is recommended that present heating system be sold to highest bidder and it be replaced with a hot water baseboard heating system operating off present boiler in Town Office Building, which is located seven feet away from library. Use of a low temperature thermostat is also recommended. Fuel bill would be cut to less than one third of what it is now.

VILLAGE FIRE DEPARTMENT

It is recommended that the ceiling of this building be insulated as soon as possible. This cost would be repaid in two years with fuel savings. At least five bids should be called for making sure all Hooksett contractors be asked to submit bids. It would save money if insulation bids for Town Office Building, Village Fire Dept., and Highway Garage be combined. Present committee could set up and award bids.

SOUTH HOOKSETT FIRE DEPARTMENT

This building has a good new heating system; fuel bills prove this. Specifications were set up and were followed. Boiler room should be isolated with an outside entrance, eliminating dangerous fire hazard in that explosive gas fumes are able to get back to burner.

HIGHWAY GARAGE

Ceiling in heated area to be insulated as soon as possible, using bid procedures outlined under Village Fire Department. It is strongly recommended that present heating system be extended to opposite side of heated area in garage so hot air would have to travel length of room. Present hookup allows a good portion of hot air to short cut and go right back to furnace. That hot air inlet in office be extended to front of building and a cold air return be run back to furnace, that a hot air outlet be installed in stock room and bath with cold air return from these back to furnace.

That furnace room be isolated from stock room and garage with a separate outside entrance. Present setup allows gas or other highly explosive fumes to be carried to burner. This is a very dangerous situation and is in violation of Underwriters and Fire Marshall's regulations.

In future, it is recommended that a new boiler room be built next to salt storage area with outside entrance only and that a forced hot water system be used. That at least five bids be called for, allowing all Hooksett installers or suppliers to bid and that specifications be set up and checked by a committee of five like present one, allowing interested persons to be appointed. This would help eliminate some of the costly errors made in the past.

It is recommended that when a new system is installed that present 2500 gallon tank be removed and installed at South Hooksett Fire Department and that Highway Garage have a bulk tank installed. This would mean all schools and two of the town buildings would be able to take advantage of bulk fuel prices. Also that two of the town buildings would have 2000 gallon or larger tanks. If these recommendations are followed, lowest possible prices on fuel possible would be had by the Town of Hooksett and heating systems would be the right type at the lowest possible prices.

Respectfully submitted,

John Luckert
Marshall J. Rice
Roger E. Hebert

Police Report

Your Police Department has a complement of six active men. All these men are employed on full time jobs outside of police work which sometimes limits their availability when needed. Like a good many other citizens a large portion of their time is donated free.

Last year the Department answered an average of nearly two calls per day. These calls may require anywhere from one hour to a full day which necessitates their absence from regular employment during these periods.

The Town is getting less and less coverage from the State Police due to the increase in population and the decrease in the number of troopers covering this area. There is very scant coverage after midnight. Twenty-four hour coverage was discontinued over a year ago. Consequently, the burden is being shifted to the towns who have the population to support a full time man.

The Town of Hooksett has a population in excess of four thousand (4,000) persons and a property valuation in excess of twelve million dollars (\$12,000,000.00). Both are increasing rapidly. Hooksett is the only town of its size in the State that does not have a full time officer and town owned cruiser. There are many towns of less population, such as our neighbors, Bedford, Pembroke and Allenstown, who support a full time man and cruiser. A recent survey of seven towns in the State in the 2,700-4,000 population class, who have full time protection, show an average police protection cost of \$6.95 per person.

It is for these reasons that the Town is being asked to provide for a trained and experienced full time man.

It is not that the present Department is not willing to continue its coverage, but that the increase in the number of calls will curtail its ability to give these the prompt attention and follow-through that the citizens deserve and expect from a Police Department.

The addition of one full time man cannot possibly give all the protection desired, but with the help of the present personnel and a staggered schedule for a permanent officer the Town should receive adequate protection until such time as the growth of the Town requires further evaluation.

Lindsay Rice
Police Chief

L. H. RICE, Chief

hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy - both industrial and recreational - is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area - 4,350,000 acres - is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

REPORT OF THE FOREST FIRE WARDEN
AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most

REPORT OF FOREST FIRE WARDEN
1964

The Town of Hooksett answered 21 Forest Fire calls during 1964. Over fifty acres were burned over. The largest and most expensive fire was the fire between Heads Pond and the Chester Turnpike on June 11th to 20th. This fire burned a total of 34 acres and was investigated by State Officials; Mr. Richard Diehl of the Forestry Dept., Chief Gerard Hight and Chief Richard Burton of Pelham who found that this fire was started by lightning and had burned slowly for days before being discovered.

New Deputy Wardens have been added to replace some that were not active.

The total of Fire Permits issued for 1964 was 226.

ANNUAL REPORT

An analysis of our activities for the year just ended shows that a total of 41 alarms were received by the Department which included coverage on real property valued at \$76,400.00 and which shows an estimated loss on property involved in the amount of \$8,650.00. A total of 29 fires occurred during the daylight hours and 13 at night. A total of 857 man-hours were required of the members for actual fire fighting purposes.

Effective July 1, 1964 Lieutenant Enver J. Silkman was promoted to the rank of Captain and given charge of Engine #2. With this promotion each of our three engine companies are now manned by one Captain, one Lieutenant and six firemen.

During the year the Department has distributed invalid stickers to all known citizens who come under this category. This system which is being adopted by most fire departments throughout the nation requires a combination of two stickers, one 4" in diameter for the front door of the home and another 2 1/2" in diameter installed on the window of the room in which the person sleeps. This system has been instituted so as to alert firemen responding to an alarm that a person in this particular home will be in need of assistance to vacate the building. We will be glad to furnish stickers to anyone who is not known to the Department. The purchase of these stickers was made through the generosity of the New England Brace Company.

With an increasing number of training films being made available to fire departments all over the State, we have purchased a new 16mm Bell & Howell sound projector at a cost of \$450.00 for use as part of our training program. This projector was purchased with funds made available by the members themselves and at no cost to the Town of Hooksett.

In accordance with Article #9 of the 1964 Town Warrant which was voted in the affirmative a contract was signed with the Farrar Fire Apparatus Company for the manufacture of a new 750 GPM triple combination pumper in May 1964. Delivery was made in September and it was accepted by the Department after having passed all tests required by and made under the supervision of the New Hampshire Board of Fire Underwriters. The new rig is now in service and the Department is very proud of its new addition.

Soon after delivery of the new apparatus the Department held Open House on October 11th. We were very pleased with the number of people who came to view the station and its equipment and also to pick up a number of publications pertaining to fire safety

in the home and business. We wish to remind all citizens that they are welcome to visit the fire station any Friday evening throughout the year.

As per a Town Ordinance passed in 1960 the Department has continued its responsibility of inspecting the installation of all new oil burning heating equipment. During the year a total of 28 new installations were inspected. Of this total 9 required reinspection because they were not in accordance with the requirements of the Ordinance. This is published as requested at the 1964 Town Meeting.

HOOKSETT LIBRARY

LIBRARY REPORT

The Library has shown an excellent gain this year. There was a net gain in circulation of over 800 books, bringing the total circulation this year to 4,990 books. Three hundred and sixty eight books were added to the collection. Many were purchased and many more were gifts. A new storm door and two storm windows were installed this year, and the floor has been refinished.

The Library is situated next to the town municipal building, and is currently open on Saturdays from 12-4. We hope in the near future to be able to increase these hours.

We invite your continued patronage and hope you will 'Help your library thrive in '65'.

PLANNING & DEVELOPING COMMITTEE
1964

On June 4, 1964 the Planning & Developing Committee met to reorganize and make plans for future development as to Sub-division and Land Usage in Hooksett.

Members of the Planning & Developing Committee are as follows: Oscar Morin Sr., Leslie M. Pike, Roland Levesque, Ralph Page, Nelson Lambert, Warren Harvey and Armand Roberge.

Other towns and cities who had already accepted sub-division were contacted as to their regulations for sub-division and then compared and discussed as to Hooksett's needs.

Twelve meetings were held, with a very good attendance of members present, in preparing Sub-Division regulations as they pertain to Hooksett. Two of these meetings were held with legal council present.

Respectfully submitted,

Dorothy M. Squire, Clerk

ZONING BOARD OF ADJUSTMENT
Report for 1964

The Zoning Board of Adjustment is comprised of five members: Chairman - Adelard Gagnon, Oscar Morin Sr., Guy Campbell, Paul Howe and Melvin Johnson.

Thirty requests for variance have been brought before the Board in 1964 (98 through 127).

Seventeen renewal and special trailer permits due to illness have been applied for. These special trailer permits have to be applied for semi-annually, January 1 and July 1.

Five requests to erect and maintain signs.

Five requests for lot variance.

Two requests for removal of loam.

One request in zoning area regulations.

Twenty-four requests have been granted, four requests denied and two conditional.

Zoning meetings are scheduled to be held on the third Tuesday of each month when there are requests to be brought before the Board. These meetings are held at the Conference Room, Town Hall.

Respectfully submitted,

Dorothy M. Squire, Clerk

Report Of The Road Agent

To the Honorable Board of Selectmen and Citizens:

I herewith submit for your approval my second annual report as Road Agent for the year ending December 31, 1964.

RUBBISH COLLECTIONS

New schedule for rubbish pick-up:

When a holiday falls on Thursday, pick-up will be made the day before.

When a holiday falls on Friday, pick-up will be made the day after.

When a holiday falls on Saturday, pick-up will be made on Monday.

The dump is open on Thursdays, Fridays and Saturdays from 9:00 A.M. to 6:00 P.M. and closed on all holidays.

 Road Agent

CONSERVATION COMMISSIONS

36-A:1 Method of Adoption. Any city by vote of its city council, and any town at any duly warned meeting, may adopt the provisions of this chapter.

36-A:2 Conservation Commission. A city or town which accepts the provisions of this chapter may establish a conservation commission, hereinafter called the commission, for the promotion and development of the natural resources and for the protection of watershed resources of said city or town. Such commission shall conduct researches into its local land areas and shall seek to coordinate the activities of unofficial bodies organized for similar purposes, and may advertise, prepare, print and distribute books, maps, charts, plans and pamphlets which in its judgment it deems necessary for its work. It shall keep an index of all open areas within the city or town, as the case may be, with the plan of obtaining information pertinent to proper utilization of such open areas, including lands owned by the state or lands owned by a town or city. It shall keep an index of all open marshlands, swamps and all other wet lands in a like manner, and may recommend to the city council or selectmen or to the department of resources and economic development a program for the better promotion, development or utilization of all such areas. It shall keep accurate records of its meetings and actions and shall file an annual town or municipal report. The commission may appoint such clerks and other employees as it may from time to time require.

36-A:3 Composition of Commission. The commission shall consist of not less than three nor more than seven members. In cities the members shall be appointed by the mayor, subject to the provision of the city charter, and in towns they shall be appointed by the selectmen. When a commission is first established, terms of the members shall be for one, two or three years, and so arranged that the terms of approximately one-third of the members will expire each year, and their successors shall be appointed for terms of three years each. Any member of a commission so appointed may, after a public hearing, if requested, be removed for cause by the appointing authority. A vacancy occurring otherwise than by expiration of a term shall be filled for the unexpired term in the same manner as any original appointment.

36-A:4 Powers. Said commission may receive gifts of money and property, both real and personal, in the name of the city or town, subject to the approval of the city council in a city or the selectmen in a town, such gifts to be managed and controlled by the commission for the purposes of this section. Said commission

may acquire by gift, purchase, grant, bequest, devise, lease or otherwise the fee in such land or water rights, or any lesser interest, development right, easement, covenant, or other contractual right including conveyances with conditions, limitations or reversions, as may be necessary to acquire, maintain, improve, protect, limit the future use of or otherwise conserve and properly utilize open spaces and other land and water areas within their city or town, and shall manage and control the same, but the city or town shall not have the right to condemn property for these purposes.

36-A:5 Appropriations Authorized. For the purpose of establishing and maintaining a conservation commission to promote the development and better utilization of our natural resources, as authorized by section 2, a town or city may appropriate moneys as is deemed necessary. The whole or any part of money so appropriated in any year may be placed in a conservation fund and allowed to accumulate from year to year. Money may be expended from said fund for the purposes of this chapter.

36-A:6 Commissioner of Resources and Economic Development. The commissioner of the department of resources and economic development may establish a program to assist, at their request, the cities and towns which have adopted the provisions of this chapter, in acquiring land and in planning of use and structures as described in section 2.

168:2 Takes Effect. This act shall take effect sixty days after its passage.

HOOKSETT SALVATION ARMY REPORT

The Hooksett Service Unit, Salvation Army, has had another busy year, and thanks to the generosity of about 100 Hooksett families and about 10 business firms, we have been able to help those who have had emergency needs.

Many people do not seem to realize that this Unit is the only Salvation Army group that sees to the immediate needs of Hooksett families. The Annual Appeal letter and the Christmas letter are our only means of receiving the financial help that we give to your neighbors.

This past year heat, food, clothing, medicine, Christmas gifts and food baskets were provided, and we would like to thank the Cub Scouts for their toys, the Congregational Sunday School for their gifts, as well as the Legion for the candy. There are other organizations in town that do a lot of Holiday Cheer giving, so most of our work is with the emergencies that come up when a man is temporarily out of work, or when a sickness hits suddenly. One income suddenly stopped can be a terrible thing to a large family.

Help can be had by contacting Mrs. Esther O'Brien, Mr. Sidney Nichols, Mrs. Alice Robinson, Mrs. Josie Bean, Mr. James Follansbee, Mrs. Beatrice Bourbeau or Mr. and Mrs. Palmer Woodworth.

Do not forget that, but for the Grace of the good Lord, anyone of us could be the one in need.

Polly Woodworth
Chairman

GOVERNMENT OF TOWN MEETING
CHAPTER 40 REVISED STATUTES
ANNOTATED 1955

MODERATOR

40:4 Duties:

The moderator shall preside in the town meetings - regulate the business thereof, decide questions of order, and make a public declaration of every vote passed, and may prescribe rules of proceeding; but such rules may be altered by the town.

Annotation

1. The statute vests the moderator with the power of making rules as he may find necessary for the government of the meeting over which he presides, subject to alteration by the town; and a strict adherence to parliamentary rules is not required.

2. Action taken by moderator of town under the extensive statutory powers granted him by this section may not be reversed except by vote of the meeting at which ruling is made.

40:5 Poll of Voters:

When any vote, other than by ballot, declared by the moderator or other officer presiding, shall immediately, and before any other business is begun, be questioned by seven or more of the voters present, the moderator or other officer presiding shall make the vote certain by a poll of the voters.

40:7 Debate:

No person shall speak in any meeting without leave of the moderator, nor when any person speaking is in order; and all persons shall be silent at the desire of the moderator, on pain of forfeiting one dollar for each offense, for the use of the town.

40:3 - a Assistant Moderator:

The moderator may appoint an assistant moderator, who shall

take the oath of office in the same manner as the moderator and shall hold office at the pleasure of the moderator, and shall have all the powers and duties which the moderator has, subject to the control of the moderator.

APPRECIATION NIGHT was observed by the Hooksett Selectmen, as they presented a citation to Parker H. Rice in recognition of his many services to the town, especially his donation of land for the Industrial Park.

WE, the townspeople and the commission owe a debt of gratitude to the working men of our cemeteries...namely, Mr. Kenneth Huey of Head's Cemetery, Mr. Moncrief and Mr. E. H. Enright of Martins' Cemetery and Masters George and Thomas Dobrowski of Riverside and Cate Cemeteries. They have done a magnificent job, under most severe conditions, this year especially. With no appreciable rainfall, the cemeteries are doing fine.

However, Martin's Cemetery has had water pressure mains installed and piped. Thanks to the cooperation of the Central water precinct, and Mr. Clifford Thompson will now have the means to grow nice new turf, and keep Martin's Cemetery forever more green and beautiful.

The fence at Head's Cemetery New Development has been extended the full length adjacent to the highway and the entire fence was painted anew.

A good amount of fertilizer, seed and loam was used at all cemeteries.

The trouble we had at the New Development at Head's has been checked. No more sand or gravel washes down on the graves. We, of the Cemetery Commission, thank Mr. Rudy Campbell, Civil Engineer on the staff of the State of New Hampshire and a resident of Hooksett, for interceding in this, our problem.

We purchased four new lawn mowers this year, and they should last another season.

In 1965, we intend to repair, gravel and oil the roads at Martin's Cemetery. The roads are dusty and crowned so that new cars can be damaged going over them. This is a must.

We had to delay the building of the road and loop at Head's New Development this year because of lack of funds, but 1965 shall see this fulfillment, we hope.

The Commission takes this annual opportunity to thank all of the Town officers, citizens, and non-residents, but concerned people of our cemeteries, for their help and cooperation this year.

Litter again was at a minimum. There has been no vandalism of any kind. We are grateful to you all.

Respectfully,
LIONEL F. LAPLANTE, Chairman
CLIFFORD THOMPSON, Co-Chairman
ERNEST GOULD, Commissioner

Cemetery Commission

REPORT OF EXPENDITURES

1964 Budget

\$4,000.00

Expenses for all cemeteries:

Bradlee's - Fertilizer	41.50
Town Gas (mowers)	1.55

RUTGER BROEK

Due to numerous calls during the year for a town map, this map is printed for your convenience.

Civil Defense

The Civil Defense organization in our town has suffered a great loss in the passing of Richard Hemeon. His leadership and ability will be greatly missed and his efforts and strides made in the Civil Defense program will last for years. No greater gift can a man make but that his last effort made be for the help of his neighbor.

Civil Defense last year completed a communication project so that the town is well represented in the state net work of RACES stations.

The completion of a Fallout shelter at Mt. St. Mary College was possible and the shelter is stored with supplies for 93 people.

The availability of buildings in the town which will meet the army engineer standards have hindered the shelter program.

1965 looks like an active year. Some of the projects to be completed are an emergency operation center at the town municipal building. A place where disaster control may be handled effectively also an emergency first-aid station is needed at the north end of town.

The Civil Defense program can be only as great as you the citizen of the town want to make it. Your participation in this effort is needed to make it a success. If you can volunteer your time and experience it will be put to good use in the betterment of our community.

Respectfully

William H. Shackford
Civil Defense Director

BRACE AVENUE - BEFORE AND AFTER

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

February 16, 1965

Board of Selectmen

Hooksett, New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Town of Hooksett for the fiscal year ended December 31, 1964, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Library, Municipal Court and Trustees of Trust Funds.

FINANCIAL STATEMENTS

Comparative Balance Sheets: December 31, 1963 - December 31, 1964: (Exhibit A-1)

Comparative Balance Sheets as of December 31, 1963 and December 31, 1964, are presented in Exhibit A-1. As indicated therein, the Net Debt decreased by \$1,517.00 in 1964.

Analysis of Change in Financial Condition: (Exhibit A-2)

An analysis of the change in financial condition of the Town during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Decrease in Net Debt

Net Budget Surplus	\$ 6,344.48
Long Term Notes Paid	11,800.00
Cash on Hand - Tax Collector -	
a/c Interest	5.20
Cash on Hand - Town Clerk -	
a/c Dog Licenses	26.70
Excess Credits (Net) - Tax	
Collector	80.04
Increase in Accounts Receivable	391.08

\$18,647.50

Increase in Net Debt

Long Term Notes Issued	\$16,800.00
Tax Liens Transferred to	
Tax Deeds	287.71
Overpayment of Tax Sale	42.79

17,130.50

Net Decrease

\$ 1,517.00

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits A-3 & A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1964, are presented in Exhibits A-3 and A-4. As indicated by the budget summary (Exhibit A-4), a revenue surplus of \$6,488.14, less a net overdraft of appropriations of \$143.66, resulted in a net budget surplus of \$6,344.48.

Summary Statement of Receipts and Expenditures: (Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1964, made up in accordance with the uniform classification of accounts is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1964, is indicated in Exhibit B-2.

Statement of Indebtedness: (Exhibit H)

A statement of outstanding long term indebtedness as of December 31, 1964, showing annual debt service requirements, is contained in Exhibit H.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current (Deficit) - Surplus:

The current financial condition of the Town changed from a current deficit (excess of current liabilities over total assets) of \$11.23, to a current surplus (excess of total assets over current liabilities) of \$6,505.77, in 1964, as shown herewith:

	<u>December 31, 1963</u>	<u>December 31, 1964</u>
<u>Total Assets</u>	\$235,004.12	\$251,174.07
<u>Current Liabilities</u>	<u>235,015.35</u>	<u>244,668.30</u>
<u>Current (Deficit) - Surplus</u>	(\$ 11.23)	\$ 6,505.77

Surety Bonds:

The surety bonds of the Town Clerk and Town Treasurer should be increased in amount as follows:

Town Clerk - \$6,000.00 to \$10,000.00

Town Treasurer - \$20,000.00 to \$25,000.00

Conclusion:

The provisions of Chapter 184 of the Laws of 1955 require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Hooksett for their assistance during the course of the audit.

Yours very truly,

Harold G. Fowler

Director

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Town of Hooksett for the fiscal year ended December 31, 1964. In our opinion, the Exhibits included herewith reflect the true financial condition of the Town on December 31, 1964, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Harold G. Fowler
Director

Regulations

PROPOSED BY TOWN PLANNING BOARD

PUBLIC HEARINGS

January 15, 1965

7:30 Memorial School

February 18, 1965

7:30 Memorial School

The Subdivision Regulations will be submitted to the voters of Hooksett on March 8, 1965, on the official Town ballot. The town clerk will place the following question on the ballot --

Shall the Subdivision regulations as proposed by the Planning Board be adopted for this Town?

Yes

☐

No

☐

AUTHORITY.

SUBDIVISION ORDINANCE for the Town of Hooksett, New Hampshire.

1. TOWN PLANNING BOARD.

The Town planning board is hereby authorized and empowered to approve or disapprove plats showing streets, or the widening thereof, or parks. The Town Clerk shall forthwith file with the register of deeds of Merrimack County a certificate showing that the planning board has been so authorized, setting forth the date of such authorization.

2. FILING OF PLATS.

No plat showing the layout of any highway or street upon private property or of building lots in connection with or in relation to such highways or streets within the municipality shall hereafter be filed or recorded in the offices of the register of deeds until it has been approved by the planning board, and such approval has been indorsed in writing on the plat. After such plat is approved and filed, the streets and parks shown thereon shall be and become a part of the official map of the municipality. The filing or recording of a plat without such approval shall be void.

3. REGULATIONS GOVERNING SUBDIVISIONS.

Before exercising the powers hereby granted, the planning board shall adopt regulations governing the subdivisions of land within the municipality. All such regulations shall be published as provided by law, and before adoption, a public hearing shall be held thereon. A copy of the regulations as adopted, signed by the chairman of the planning board, shall be filed with the register of deeds. Such regulations may be amended, changed, altered, added to, or rescinded whenever the planning board deems such action necessary or advisable, but only following public hearing on the proposed amendment, change, alteration, addition, or rescission, and a statement, signed by the chairman of the planning board, indicating any variances thus authorized from such regulations as were previously filed, shall be transmitted to the register of deeds.

4. PROTECTIVE REGULATIONS.

Such regulations may provide against such scattered or premature subdivision of land as would involve danger or injury to health, safety or prosperity by reason of the lack of water supply, drainage, transportation, or other public services, or necessitate an excessive expenditure of public funds for the supply of such services. Such regulations may provide for the harmonious development of the municipality and its environs; for the proper arrangement and co-ordination of streets within the subdivision in relation to other existing or planned streets or with features of the official map of the municipality and its environs; for the proper arrangement and co-ordination of streets within the subdivision in relation to other existing or planned streets or with features of the official map of the municipality; for open spaces of adequate proportions and for suitable-located streets of sufficient width to accommodate existing and prospective traffic and to afford adequate light, air, and the access of firefighting apparatus and equipment to buildings, and be co-ordinated so as to compose a convenient system. The regulations of the board may require in proper cases that plats showing new streets or narrowing or widening thereof submitted to it for approval shall show a park or parks suitably located for playground or other recreational purposes; they may require that proposed parks shall be of reasonable size for neighborhood playgrounds or other recreation uses, and that the land indicated on plats submitted shall be of such character that it can be used for building purposes without danger to health; they may prescribe minimum widths, depths, and areas of lots so as to avoid congestion of population and generally may include provisions which will tend to create conditions favorable to health, safety, convenience, or prosperity.

5. GRADING, IMPROVEMENT AND UTILITIES.

Such regulations of the planning board may stipulate, as a condition precedent to the approval of the plat, the extent to which and the manner in which streets shall be graded and improved and to which water, sewer, and other utility mains, piping, connections, or other facilities shall be installed. The regulations or practices of the planning board may provide for the tentative approval of the plat before such improvement and installations have been constructed but any such tentative approval shall not be entered on the plat. Such regulations may provide that, in lieu of the com-

pletion of such work and installations previous to the final approval of a plat, the planning board may accept a bond, in an amount and with surety and conditions satisfactory to it, providing for and securing to the municipality the actual construction and installation of such improvements and utilities within a period specified by the planning board and expressed in the bond. Such regulations may provide, in lieu of the completion of such work and installations previous to the final approval of a plat, for an assessment or other method whereby the municipality is put in an assured position to do said work and make said alterations at the cost of the owners of the property within the subdivision.

6. APPROVAL OR DISAPPROVAL BY PLANNING BOARD.

The planning board shall consider any Plat submitted to it within thirty days and shall act to approve or disapprove thereof within ninety days; otherwise such plat shall be deemed to have been approved, and the certificate of the municipality, as to the date of submission of the plat for approval and failure to take action thereon within such time, shall be issued on demand and shall be sufficient in lieu of the written indorsement or other evidence of approval herein required; provided, however, that the applicant for the board's approval may waive this requirement and consent to an extension of such period. The Town Clerk shall issue in behalf of the municipality the certificate of failure on the part of the planning board to take action aforesaid. In case of disapproval of any plat submitted, the ground for such disapproval shall be adequately stated upon the records of the planning board. Any plat submitted to the planning board shall bear the name and address of the person to whom notice of a hearing shall be sent; and no plat shall be acted on by the planning board without affording a hearing thereon. Notice shall be sent to the said address by registered mail, with return receipt requested, stating the time and place of such hearing, not less than five days before the date fixed therefor.

7. ACCEPTANCE OF PLATS.

Approval of a plat shall not be deemed to constitute or effect an acceptance by the municipality or the public of the dedication of any street or other ground or open space shown upon the plat.

The municipality shall not hereafter accept, lay out, open, improve, grade, pave, or light any street or lay or authorize the laying of water mains, sewers, connections, or other facilities or utilities in any street, within any portion of the municipality unless

such street (a) shall have been accepted or opened as, or shall otherwise have received the legal status of a public street prior to the conferring of plating jurisdiction upon the planning board, or unless such street (b) correspond in its location and lines with a street shown on the official map or with a street shown on a subdivision plat approved by the planning board, or with a street on a street plat made by and adopted by the board. The Town may, however, accept, locate and construct any street not shown on, or not corresponding with a street on the official map or an approved subdivision plat or an approved street plat, provided the petition for the accepting, locating and construction of such street be first submitted to the planning board for its approval, and, if approved by the board, be approved by a majority vote of the Board of Selectmen, or if disapproved by the planning board, be approved by a majority of the legal voters present and voting at a regular or special Town Meeting. A street approved in such a manner shall thereupon have the status of an approved street as fully as though it had been originally shown on the official map or on a subdivision plat approved by the planning board, or had been originally platted by the planning board.

8. NEW ERECTIONS AND PERMITS.

No building shall hereafter be erected on any lot within any part of the municipality nor shall a building permit be issued therefor unless the street giving access to the lot upon which such building is proposed to be placed (a) shall have been accepted or opened as or shall otherwise have received the legal status of a public street prior to the granting of plating jurisdiction to the planning board, or unless such street (b) correspond in its location and lines with a street shown on the official map or with a street on a subdivision plat approved by the planning board or with a street on a street plat made by and adopted by the planning board or with a street located and accepted by the board of Selectmen, after submission to the planning board, and in case of said planning board's disapproval, by the favorable vote of a majority of the legal voters present and voting at a regular or special Town Meeting. Whenever the enforcement of the provisions of this paragraph would entail practical difficulty or unnecessary hardship, and where the circumstances of the case do not require the building, structure, or part thereof to be related to existing or proposed streets, the applicant for such permit may appeal from the decision of the Selectmen to the Board of adjustment. In passing such an appeal, after public hearing, the board of adjustment may take

any reasonable exception and shall have the power to authorize or issue a permit, subject to such conditions as it may impose, where the issuance of the permit would not tend to distort the official map or increase the difficulty of carrying out the master plan upon which it is based.

9. SALE OF SUBDIVISIONS.

Whoever, being the owner or agent of the owner of any land located within a subdivision, transfers or sells any land by reference to, or exhibition of, or by other use of, a plat of a subdivision, before such plat has been approved by the planning board and recorded or filed in the office of the register of deeds shall forfeit and pay a penalty of one hundred dollars for each lot or parcel so transferred or sold; and the description by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring shall not exempt the transaction from such penalties.

10. SAVING CLAUSE.

If any provision of this ordinance is declared unconstitutional or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the ordinance and application to other persons or circumstances shall not be thereby affected.

SUBDIVISION REGULATIONS

I. DEFINITIONS:

For the purpose of these regulations, which shall be known as and may be cited as The Town of Hooksett Subdivision Regulations, certain words used herein are defined as follows:

A. Subdivision

The term "subdivision" means the division of a parcel of land into two or more lots or parcels for the purpose of transfer of ownership or building development, or, if a new street is involved, any division of a parcel of land; provided that a division of land for agricultural purposes into lots or parcels of five acres or more and not involving a new street shall not be deemed a subdivision. The term includes resubdivision and, when appropriate to the context, shall relate to the process of subdividing or to the land subdivided.

B. Streets:

The term "street" means a way for vehicular traffic, whether designated as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, land, place, or however otherwise designated.

II. PROCEDURE

A. Pre-application Procedure

1. Prior to the filing of an application for conditional approval of the Preliminary Plat, the sub-divider shall submit to the Planning Board and simultaneously, to the Water Board of the appropriate Water Department, if the subdivision is within or adjacent to the service area of any water department within the Town, plans and data specified in Section V. This step does not require formal application or filing of plat with either the Planning Board or the Water Department involved.

2. Within 30 days the Planning Board shall inform the subdivider that the plans and data as submitted or as modified do not meet the objectives of these regulations. When the Planning Board finds the plans and data do not meet the objectives of these regulations it shall express its reasons therefor.

3. Within 30 days the Water Board, where such board is involved under A-1 above, shall inform the subdivider and the Planning Board whether or not water will be available for the proposed subdivision and, if so, on what terms and conditions. In the event such Water Board shall fail to take the action required herein within 30 days, the Planning Board shall proceed on the basis that no public water service shall be available for the subdivision under consideration.

B. Procedure for Conditional Approval of Preliminary Plat.

1. On reaching conclusions, informally as recommended in A. above, regarding his general program and objectives, the Subdivider shall cause to be prepared a Preliminary Plat, together with improvement plans and other supplementary material as specified in Section V.

2. Four copies of the Preliminary Plat and supplementary material specified shall be submitted to the Planning Board with written application for conditional approval at least seven days prior to the meeting at which it is to be considered. At the same time as such material is submitted to the Planning Board, two copies of such Preliminary Plat and supplementary material shall be submitted to the appropriate Water Board, if it is determined under A. above, that public water service shall be available to the subdivision under consideration.

3. No plat, so submitted, shall be acted on by the Planning Board without affording a hearing thereon. Notice shall be sent to the Subdivider by certified mail, with return receipt requested, stating the time and place of such hearing, not less than five days before the date fixed therefor.

4. Following (a) review of the Preliminary Plat and other material submitted for conformity thereof to these regulations, (b) review of the report of the appropriate Water Board, if any is involved, and its requirements and suggestions and (c) negotiations with the Subdivider on changes deemed advisable and the kind and extent of improvements to be made by him, the

Planning Board shall, within 90 days, act thereon as submitted, or modified, and if approved, the Planning Board shall express its approval as Conditional Approval and state the conditions of such approval, if any, or if disapproved, shall express its disapproval and its reasons therefor.

5. The action of the Planning Board shall be noted on two copies of the Preliminary Plat, referenced and attached to any conditions determined. One copy shall be returned to the Subdivider and the other retained by the Planning Board. The action of the appropriate Water Board, where required, shall be noted on its two copies of the Preliminary Plat, together with its requirements for service to the subdivision and a lay-out of the pipe line and appurtenances to be installed. One copy shall be returned to the subdivider and the other retained by the Water Board.

6. Conditional Approval of a Preliminary Plat shall not constitute approval of the Final Plat. Rather it shall be deemed an expression of approval to the layout submitted on the Preliminary Plat as a guide to the preparation of the Final Plat which will be submitted for approval of the Planning Board and for recording upon fulfillment of the requirements of these regulations and the conditions of the Conditional Approval, if any.

C. Procedure for Approval of Final Plat

1. The Final Plat shall conform substantially to the Preliminary Plat as approved, and, if desired by the Subdivider, it may constitute only that portion of the approved Preliminary Plat which he proposes to record and develop at the time, provided, however, that such portion conforms to all requirements of these regulations, and the requirements of the appropriate Water Department, if any is involved.

2. Application for approval of the Final Plat shall be submitted in writing to the Planning Board at least seven days prior to the meeting at which it is to be considered.

3. Eight copies of the Final Plat and other exhibits required for approval shall be prepared as specified in Section V.; five of said copies shall be submitted to the Planning Board and three of said copies shall be submitted to the appropriate Water Board, if any, within 12 months after approval of the Prelimi-

nary Plat; otherwise such approval shall become null and void unless an extension of time is applied for and granted by the Planning Board.

III. DESIGN STANDARDS

A. Streets

1. The arrangement, character, extent, width, grade and location of all streets shall be considered in their relation to existing and planned streets, to topographical conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets.

2. The arrangement of all streets in a subdivision shall either:

- a. Provide for the continuation or appropriate projection of existing principal streets in surrounding areas: or
- b. Conform to a plan for the neighborhood approved or adopted by the Planning Board to meet a particular situation where topographical or other conditions make continuance or conformance to existing streets impracticable.

3. Residential streets shall be laid out that their use by through traffic will be discouraged.

4. Where a subdivision abuts or contains an existing or arterial street, the Planning Board may require marginal access streets, reverse frontage with screen planting contained in a nonaccess reservation along the rear property line, deep lots with rear service streets, or such other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.

5. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the Planning Board may require a street approximately parallel to and on each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land, as for park

purposes in residential districts, or for commercial or industrial purposes in appropriate districts. Such distances shall also be determined with due regard for the requirements of approach grades and future grade separations.

6. Reserve strips controlling access to streets shall be prohibited except where their control is definitely placed in the Town under conditions approved by the Planning Board

7. Street jogs with centerline offsets of less than 125 feet shall be avoided

8. A tangent at least 100 feet long shall be introduced between reverse curves on all streets.

9. When connecting street lines deflect from each other at any one point by more than ten degrees, they shall be connected by a curve with a radius adequate to insure a sight distance of not less than 200 feet in all cases, and of such greater radius as the planning board shall determine for special cases.

10. Streets shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other street at less than 60 degrees.

11. Property lines at street intersections shall be rounded with a radius of ten feet, or of a greater radius where the Planning Board may deem it necessary. The Planning Board may permit comparable cut-offs or chords in place of rounded corners.

12. All street rights-of-way shall not be less than fifty (50) feet in width.

13. Half streets shall be prohibited, except where essential to the reasonable development of the subdivision in conformity with the other requirements of these regulations; and where the Planning Board finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.

14. Dead-end streets, designed to be so permanently, shall

not be longer than 500 feet and shall be provided at the close end with a turn-around having an outside roadway diameter of at least 100 feet, and a street property line diameter of at least 120 feet.

15. No street names shall be used which will duplicate or be confused with the names of existing streets. Street names shall be subject to the approval of the Planning Board.

16. Street grades, wherever feasible, shall not exceed 10%, with due allowance for reasonable vertical curves.

17. No street grade shall be less than 0.50 percent.

B. EASEMENTS

1. Easements across lots or centered on rear or side lot lines shall be provided for utilities where necessary and shall be at least 12 feet wide, and such additional width as the Planning Board may require.

2. Where a subdivision is traversed by a water course, drainage way, channel, or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of such water course, and such further width or construction, or both, as will be adequate for the purpose. Parallel streets or parkways may be required in connection therewith.

C. BLOCKS

1. The lengths, widths and shapes of blocks shall be determined with due regard to:

- a. Provision of adequate building sites suitable to the special needs of the type of use contemplated.
- b. Zoning requirements as to lot sizes and dimensions.
- c. Needs for convenient access, circulation, control and safety of street traffic.
- d. Limitations and opportunities of topography.

2. Block lengths shall not exceed 1,000 feet, or be less than 500 feet.

3. Pedestrian crosswalks, not less than ten feet wide, shall be required where deemed essential to provide circulation, or access to schools, playgrounds, shopping centers, transportation, and other community facilities.

D. Lots

1. The lot size, width, depth, shape, and orientation, and the minimum building setback lines shall be appropriate for the location of the subdivision and for the type of development and use contemplated.

2. Lot dimensions shall conform to the area requirements of the Zoning Ordinance, and in addition

- a. Residential lots where not served by public sewer shall not be less than 175 feet wide, nor less than 125 feet deep and no such lot shall have a total area of less than 30,000 square feet.
- b. Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street service and parking facilities required by the type of use and development contemplated.

3. Corner lots for residential use shall have extra width to permit appropriate building setback from and orientation to both streets.

4. The subdividing of the land shall be such as to provide, by means of a public street, each lot with satisfactory access to an existing public street.

5. Double frontage, and reverse frontage lots, shall be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A planting screen easement of at least ten feet and across which there shall be no right of access, shall be provided along the line of lots abutting such a traffic artery or other disadvantageous use.

6. Side lot lines shall be substantially at right angles or radial to street lines.

E. Public Sites and Open Spaces

1. Where deemed essential by the Planning Board, upon consideration of the particular type of development proposed in the subdivision, and especially in large-scale neighborhood unit developments, the Planning Board may require the dedication or reservation of such areas or sites of a character, extent and location suitable to the needs of the development, of the Town for schools, parks, play-grounds or other neighborhood purposes.

IV REQUIRED IMPROVEMENTS

A. Monuments

1. Monuments shall be placed at all block corners, angle points, points of curves in streets, and at such intermediate points as shall be required by the Town Engineer. The monuments shall be granite and of such size and length as may be approved by the Town Engineer.

B. Utility and Street Improvements.

1. Grading and center line gradients: per plans and profiles approved by the Town Engineer.

2. Storm sewer system and other drainage improvements: per plans and profiles approved by the Town Engineer.

3. Public water, where available, per specifications of Water Department.

4. Public sewer, where available, per specifications of the Town Engineer.

5. Streets within development: Cross sections as determined by Town Engineer and the Planning Board. All streets shall have a 50 foot right-of-way, with 40 feet of pavement, including the curb, and 5 foot sidewalks.

6. Streets along development boundaries, and streets connecting development with existing improved street system; Cross sections as determined by Town Engineer and Planning Board.

7. Curb: Granite, 5" width as per State specifications art. 710.

8. Pavement base:

a. Type I-1 hot asphaltic pavement, 6" crushed gravel per State specifications, art. 221 and 12" gravel per State specifications, art. 210.

9. Wearing surface:

a. 3" type I-1 hot asphaltic concrete plant mixed per State specifications, art. 250

10. Side walks:

a. 2" hot asphaltic concrete, 1" binder course, 1" wearing surface per State specifications, art. 731, 4" gravel base.

b. 3" hot asphaltic concrete across driveways.

11. Street trees per requirements of Planning Board.

12. Planting strips:

a. Seeding per State specifications art. 785.

b. Loaming per State specifications, art. 781.

c. Fertilizing per State specifications, art. 784.

13. Street name signs: at all intersections per Uniform Traffic Control Devices.

14. Whenever the Town Engineer finds that extraordinary physical conditions exist, he may vary the above requirements for utilities and street improvements, provided that such variation shall be in accordance with accepted engineering practices, and provided, further, that such variation will not have the effect of nullifying the intent and purposes of these schedules.

NOTE:

Reference to State specifications shall mean Standard Specifications for Road and Bridge Construction of the New Hampshire Department of Public Works and Highways.

Reference to Uniform Traffic Control Devices shall mean Manual on Uniform Traffic Control Devices for Streets and Highways published by U.S. Department of Commerce, Bureau of Public Roads.

V. PLATS AND DATA

A. Pre-application Plans and Data

1. General Subdivision Information shall describe or outline the existing conditions of the site and the proposed development as necessary to supplement the drawings required below. This information may include data on existing covenants, land characteristics, and available community facilities and utilities; and information describing the subdivision proposal such as number of residential lots, typical lot width and depth, price range, business areas, playgrounds, park areas, and other public areas, proposed protective covenants and proposed utilities and street improvements.

2. Location Map shall show the relationship of the proposed subdivision to existing community facilities which serve or influence it. Include development name and location; main traffic arteries; public transportation lines; shopping centers; elementary and high schools; park and playgrounds; principal places of employment; other community features such as railroads, airports, hospital, churches, other public and semi-public buildings; title; scale; north arrow; and date.

3. Sketch Plan on topographic survey shall show in simple sketch form the proposed layout of streets, lots, and other features in relation to existing conditions. The sketch plan may be a free hand penciled sketch made directly on a print of the topographic survey. In any event the sketch plan shall include either the existing topographic data listed in B-1 below or such of these data as the Planning Board or appropriate Water Board, if its approval is required, determines is necessary for its consideration of the proposed sketch plan.

B. Plats and Data for Conditional Approval

1. Topographic Data required as a basis for the Preliminary Plat, in B-2 below, shall include existing conditions as follows except when otherwise specified by the Planning Board:

- a. Boundary lines: bearing and distances.
- b. Easements: location, width and purpose.
- c. Streets on and adjacent to the tract: name and right-of-way width and location; type, width and elevation of surfacing; any legally established center-line elevations; walks, curbs, gutters, culverts, etc.
- d. Utilities on and adjacent to the tract: location, size and invert elevation of sanitary, storm and combined sewers; location and size of water mains; location of gas lines, fire hydrants, electric and telephone poles, and street lights; if water mains and sewers are not on or adjacent to the tract, indicate the direction and distance to, and size of nearest ones, showing invert elevation of sewers.
- e. Ground elevations on the tract, based on datum plane approved by the Town Engineer; for land that slopes less than approximately two percent show spot elevations at all breaks in grade, along all drainage channels or swales, and at selected points not more than 100 feet apart in all directions; for land that slopes more than approximately two percent either show contours with an interval of not more than five feet if ground slope is regular and such information is sufficient for planning purposes, or show contours with an interval of not more than two feet if necessary because of irregular land or need for more detailed data for preparing plans and construction drawings.
- f. Subsurface conditions of the tract, if required by the Planning Board or Water Board: location and results of tests made to ascertain subsurface soil, rock and ground water conditions; depth to ground water unless test pits are dry at a depth of five feet; location and results of soil percolation tests if individual sewage disposal systems are proposed.

- g. Other conditions of the tract: water courses, marshes, rock outcrop, wooded areas, isolated preservable trees one foot or more in diameter, houses, barns, shacks, and other significant features.
 - h. Other conditions of adjacent land: approximate direction and gradient of ground slope, including any embankments or retaining walls; character and location of buildings, railroads, power lines, towers, and other nearby non-residential land uses or adverse influences; owners of adjacent unplatted land; for adjacent platted land refer to subdivision plat by name, recording date, and number, and show approximate percent built-up, typical lot size, and dwelling type.
 - i. Photographs, if required by the Planning Board: camera locations, directions of view and key numbers.
 - j. Zoning on and adjacent to the tract.
 - k. Proposed public improvements: highways or other major public improvements planned by public authorities for future construction on or near the tract.
 - l. Key Plan showing location of the tract.
 - m. Title and certificates: present tract designation according to official records in office of appropriate recorder; title under which proposed subdivision is to be recorded, with names and addresses of owners, notation stating acreage, scale, north arrow, datum, benchmarks, certificate of registered civil engineer or surveyor, date of survey.
2. Preliminary Plat shall be at a scale of 200 feet to one inch or larger (preferred scale of 50 feet to one inch). It shall show all existing conditions required above in B-1, Topographic Data, and shall show all proposals including the following:
- a. Streets: names; right-of-way and roadway widths; approximate grades and gradients.
 - b. Other rights-of-way or easements: location, width and purpose.

- c. Location of utilities, if not shown on other exhibits.
- d. Lot lines, lot numbers and block numbers.
- e. Sites, if any, to be reserved or dedicated for parks, playgrounds, or other public uses.
- f. Sites, if any for multifamily dwellings, shopping centers, churches, industry or other nonpublic uses exclusive of single family dwellings.
- g. Minimum building setback lines.
- h. Site data, including number of residential lots, typical lot size, and acres in parks, etc.
- i. Title, scale, north arrow, and date.

3. Other Preliminary Plans. Where required by the Planning Board, or by the Water Board if one is involved, the Preliminary Plat shall be accompanied by profiles showing existing ground surface and proposed street grades, including extensions for a reasonable distance beyond the limits of the proposed subdivision; typical cross sections of the proposed grading, roadway and sidewalk; and preliminary plan of proposed sanitary and storm sewers with grades and sizes indicated. All elevations shall be based on a datum plane approved by the Town Engineer.

4. Draft of Protective Covenants whereby the subdivider proposes to regulate land use in the subdivision and otherwise protect the proposed development.

C. Plats and Date for Final Approval

1. Final Plat shall be drawn in ink on tracing cloth on sheets 25 inches wide by 28 inches long and shall be at a scale of 100 feet to one inch or larger (preferred scale of 50 feet to one inch). Where necessary, the plat may be on several sheets accompanied by an index sheet showing the entire subdivision. For large subdivisions the Final Plat may be submitted for approval progressively in contiguous sections satisfactory to the Planning Board. The Final Plat shall show the following:

- a. Primary control points, approved by the Town Engineer, or descriptions and "ties" to such control points, to which all dimensions, angles, bearings and similar data on the plat shall be referred.
 - b. Tract boundary lines, right-of-way lines of streets, easements and other rights-of-way, and property lines of residential lots and other sites; with accurate dimensions, bearings or deflection angles, and radii, arcs, and central angles of all curves.
 - c. Name and right-of-way width of each street or other right-of-way.
 - d. Location, dimensions and purpose of any easements.
 - e. Number to identify each lot or site.
 - f. Purpose for which sites, other than residential lots, are dedicated or reserved.
 - g. Minimum building setback line on all lots and other sites.
 - h. Location and description of monuments.
 - i. Names of record owners of adjoining unplatted land.
 - j. Reference to recorded subdivision plats of adjoining platted land by record, date and number.
 - k. Certification by surveyor or engineer certifying to accuracy of survey and plat.
 - l. Certification of title showing that the applicant is the land owner.
 - m. Title, scale, north arrow, and date.
2. Cross Sections and Profiles of streets showing grades approved by the Town Engineer. The profiles shall be drawn to Town standard scales and elevations and shall be based on a datum plane approved by the Town Engineer.

3. A certificate by the Town Engineer certifying that the subdivider has complied with one of the following alternatives:

- a. All improvements have been installed in accordance with the requirements of these regulations and with the action of the Planning Board giving Conditional Approval of the Preliminary Plat, or
- b. A bond or certified check has been posted, which is available to the Town and in sufficient amount to assure such completion of all required improvements.
- c. An escrow agreement in a bank licensed by the State of New Hampshire, or the United States Government, certified by the Town Solicitor as valid and enforceable by the Town and in sufficient amount to assure such completion of all required improvements.

4. Warranty Deed conveying to the Town all streets, rights-of-way and any sites for public use in fee simple, free from all encumbrances.

5. Protective Covenants in form for recording.

6. Other Data: Such other conveyances, certificates, affidavits, endorsements, or deductions as may be required by the Planning Board in the enforcement of these regulations.

VI. VARIANCES

A. Hardship

Where the Planning Board finds that extraordinary hardships may result from strict compliance with these regulations, it may vary the regulations so that substantial justice may be done and the public interest secured; provided that such variation will not have the effect of nullifying the intent and purpose of these regulations.

B. Large Scale Development.

The standards and requirements of these regulations may be modified by the Planning Board in the case of a plan and program for a new town, a complete community, or a neighborhood unit, which in the judgement of the Planning Board provides adequate public spaces and improvements for the circulation, recreation, light, air, and service needs of the tract when fully developed and populated, and which also provide such covenants or other legal provisions as will assure conformity to and achievement of the plan.

C. Conditions

In granting variances and modifications, the Planning Board may require such conditions as will, in its judgement, secure substantially the objectives of the standards or requirements so varied or modified.

VII EFFECTIVE DATE.

These regulations shall become effective upon their passage and shall apply thereafter to all subdivisions within the Town of Hooksett, as defined in these regulations, except that they shall not apply to subdivisions for which plans are on file in the office of the Selectmen and which have been approved by the Board of Selectmen and Planning Board, under the Ordinances in force at the time of such approval, for a period of 12 months from such date of the passage of these regulations. At the expiration of 12 months from such date of passage all plans on file shall become null and void as to all portions of said plans not executed, that is those portions covering areas where no buildings have been constructed or no lots have been sold and no streets have been constructed, and new plans conforming to these regulations must be filed as provided herein.

HOOKSETT VILLAGE SCHOOL

Hooksett, New Hampshire School Warrant

To the inhabitants of the School District in the Town of Hooksett in the county of Merrimack in said State, qualified to vote in District affairs:

You are hereby notified to meet at the Hooksett Memorial School Auditorium, in said Hooksett on Saturday, the sixth (6th) day of March next at two (2) o'clock P. M.

(Election of District Officers will be held on Town Meeting Day)

1. To see if the voters will instruct the Moderator not to ask for Vote of any Motion made and seconded to Pass over or Adopt until all persons present have been heard and all discussion ended. (Inserted by Petition)

2. That a sum of \$1500.00 be appropriated to pump out and remove old tank replacing it with a 6830 gallon fuel oil tank. Excavating and installation bids to be separate. At least five bids shall be asked for, including any interested Hooksett installer or supplier. Lowest responsible bidder to get award. Present committee to pass on bids. All monies to be accounted for and any remaining to be returned to School Department. (Inserted by petition)

3. Fuel bids for all school buildings having bulk tanks would be combined with any town building having said tank. Bids shall be advertised for in the Union Leader plus to at least five terminal tank companies such as Sprague of Portsmouth, Metropolitan of Boston, Union Oil of Boston, etc. Separate bids for #4 and #2 oil shall be asked for. Bids to be awarded to lowest bidder on #2 and #4 oil. Bidder shall furnish separate invoices for each building so it can be charged for fuel used. Committee shall pass on bids. (Inserted by petition)

4. It be moved that present committee on heating be extended for another year to follow up recommendations made and to look into other possible savings in other construction phases such as plumbing, insulation, etc. (Inserted by petition)

5. That any member of the present committee who resigns will be replaced at town meeting by interested person or persons. Chairman of the committee to appoint new member between meeting with approval of majority of committee remaining. (Inserted by petition)

6. To see if the voters of the Town of Hooksett will earmark

the expected funds from the New Hampshire Sweepstakes (approximately \$20,000) to be used exclusively and entirely for the educational system of the town. That these funds be above and beyond the annual school budget submitted to the voters. And that these funds be used by school board for the purchase of necessary school equipment; ie, library and classroom books, audio-visual aids, enhancement of teachers salaries, etc. All of the above expenditure of money to be contingent upon receipt of these expected funds from the New Hampshire Sweepstakes. (Inserted by petition)

7. To see if the Town will vote to lease a parcel of land (at least one acre) south of the Memorial School Entrance bordering on the Daniel Webster Highway to the Hooksett Woman's Club. This property is to be used for a project which will benefit and improve the Town. (Inserted by petition)

8. To see if the district will vote to authorize the School Board to construct an addition to the Underhill School, said addition to consist of six class rooms, a combination cafeteria-auditorium and such other space and equipment as deemed necessary by the School Board for this purpose; and to execute any and all contracts or agreements and to make any and all purchases of supplies and materials necessary in connection with the construction of said addition; and to see if the District will vote to authorize its school board to borrow a sum of money not to exceed \$231,000.00 dollars on the credit of the District by the issue of Serial Bonds as provided in RSA33 for the purpose specified herein and to determine the time and place of payment and the form of said Bonds and the rate of interest.

9. To see if the School District will vote to accept the Budget as submitted by the Budget Committee, or take any other action in relation thereto.

Given under our hands and seal, this tenth day of February, in the year of our Lord nineteen hundred and sixty-five.

School Study Committee Report

Carrying further the studies of last year's High School Study Committee to determine the space needs of the entire school system in Hooksett--

Your Committee contacted contractors now developing areas in our Town and utilized the school census as well as the enrollment figures at the start and end of the school year.

In 1954 our school enrollment was 413 at the start of the year but by 1964 it had climbed to 695. This figures out to a yearly enrollment increase of 6% over the previous years. This percentage approximates the increase of enrollment experienced in the growth of each class during the school year and is a valid figure to use.

The chart below indicates the class enrollments in October 1964 when the census was taken and what the approximate size of each class will be yearly through the eighth grade based on an annual 6% projection.

Grade	64-65	65-66	66-67	67-68	68-69	69-70	70-71	71-72
8	79							
7	78	83						
6	62	66	70					
5	95	101	107	113				
4	80	85	90	95	101			
3	87	92	97	103	109	116		
2	104	110	117	124	131	139	147	
1	110	117	124	131	139	147	156	165

The following chart gives the number of pre-school age children now in Hooksett and eligible to enter our school system in the year indicated. These figures do not include the annual 6% projected increase.

AGE	NUMBER	STARTING SCHOOL
Less than 1	101	1970
1	96	1969
2	104	1968
3	110	1967
4	114	1966
5	123	1965

From developers now operating in Hooksett we have 195 new homes scheduled to be built within five years exclusive of individual builders who have in the past contributed to Hooksett growth. From these figures and including in consideration other available areas for development, the Committee has reported to your School Board a need for more elementary classroom space immediately.

A breakdown indicates approximately 115 homes will be built in the Underhill area (60 homes possibly on property adjacent to the Underhill School). This is the area we must concern ourselves with at once. Existing at Underhill are ten standard classrooms, all in use, and a cafeteria which was designed to convert into two classrooms when needed. In 1965-1966 another room is needed and a room will be needed each year thereafter for at least six years.

Preliminary cost estimates indicate a required expenditure of \$216,900.00 for an addition of 11,800 square feet. This addition of six classrooms and a cafeteria will give Underhill School a total of 18 classrooms.

With an increase of 80 homes in the Village area a similar addition will be needed here. Although pupil projections are undoubtedly on the conservative side, we anticipate the need for an addition here in approximately two to three years.

Our studies on the high school situation bear out last year's conclusions that we will not be able to support a High School until sometime between 1970 and 1975. By this time Hooksett will be paying tuition for 500 pupils which based on the present average cost of \$500.00 per pupil would mean an expenditure of \$250,000. per year. It is at this point that Hooksett should be ready for its own High School.

BUDGET COMMITTEE

The Future Is A Challenge Not A Guarantee

SCHOOL BOARD REPORT FOR THE 1964-65 SCHOOL YEAR

No one knows for a certainty where life will eventually lead our children nor does anyone have in hand a road map showing exactly how they are going to get there - wherever "there" may be. This does not mean however that we cannot hold a deep and abiding faith in the rightness and the worthwhileness of their lives.

Broad social changes are in the making throughout the world and cannot be ignored. Our schools must therefore stay abreast of these changes because knowledge and learning, generally diffused throughout a community, is essential to the preservation of a free government. It is here that instruction and teaching techniques must adapt to the widespread realities of life as it is.

We can count that year lost which does not witness an improvement in our teaching staff, in the methods, the textbooks, and the materials that are used. The facilities within which our children must work and study must also keep pace. If this seems like a big undertaking - it is.

Hooksett is most fortunate to have at the head of its teaching staff three progressive and dedicated principals: Mr. Charles Lord at Memorial, Mr. Robert Shea at Underhill and Mr. David Cawley at the Village. Under their combined leadership our teaching staff has grown in stature. Our older teachers are taking educational courses on their own time and at their own expense to up-grade their individual abilities and the new teachers that have entered our system have been carefully chosen to add to these abilities. The benefit to Hooksett's children has already been more than worth the cost. Lest anyone feel that we are placing too much emphasis on the quality of our teaching staff, may we point out that anyone who undertakes the leadership and direction of a group of children, be that group small or large, must cope with the virtues and faults, the strengths and weaknesses of a group of human beings who, like themselves are far from perfect. Teachers must understand children. They cannot be surprised, shocked, puzzled, frustrated, or made angry or impatient when they encounter what often seems like a crazy-quilt response mechanism but is after all so very human. Teachers must also have a deep and profound faith in the intrinsic, but unseen, gifts and capacities of children, whose talents lie hidden deep beneath the surface, waiting to be discovered, developed and utilized. Thus teachers must possess not only faith that the

indwelling aptitudes are there, but must also have the insight to discover them, plus the patience to nurture them. It is our firm belief that the educational background, teaching experience and character of our teachers is most important to our children during this period of their growth and development.

Recent repairs to the Village School have added immeasurably to its value and efficiency as an educational facility. The installation of Kalwall windows and new doors has reduced the heating cost by over \$600.00 per year and added to the comfort of both children and teachers.

The new School Bus put into service in October has shortened the time required to bring the children to school and to return them to their homes. It has also relieved the overcrowding in the other buses and enabled us to send a bus up Morrill Road and thus eliminate a long walk for the children on that hill. A timely and most important project has been completed by the School Study Committee and we thank the members who devoted so much time, thought and consideration to the present and future needs of the Hooksett School System. Planning is never easy but planning for the future is the most difficult of all because it demands so many contributions to make it effective. There must be experience on which to draw in order to foresee what circumstances and situations are likely to present themselves. There must be a way to recall all the details of significant and similar prior experiences. There must be imagination to translate the experience of the past into the pictured probabilities of the future.

Planning must correlate TIME, PLACE, PEOPLE, and PURPOSE. Since planning involves TIME and PLACE, it must inevitably involve SCHEDULING, which means deciding upon the date and time at which certain steps are to be taken, or certain purposes realized.

A great deal of planning has gone into the report of the School Study Committee that is printed elsewhere in this report, and we commend it to your most careful consideration.

Respectfully Submitted ARTHUR B. SANBORN
 JAMES E. VAN VLIET
 HAROLD C. MURRAY
 School Board of Hooksett

Superintendent's Report

Year:	51-52	56-57	61-62	62-63	63-64	64-65
Membership:	308	410	528	605	651	689

The Massachusetts legislature passed a minimum salary for teachers of \$5,000. A year ago the minimum was \$4500. This new salary has already had an effect upon New Hampshire towns and cities bordering Massachusetts and will eventually work its way up the Merrimack Valley. It has already given the New Hampshire Education Association courage to introduce a \$5000 minimum bill in the New Hampshire Legislature. Whether or not we can hire good beginning teachers at \$4500 this spring remains to be seen, but at the moment, this seems to be the "going price" in this area.

We are so concerned with physical growth that we are inclined to forget other things. Hooksett has some good learning situations, with capable teachers and leadership. We try to keep our classes on the small side, particularly in the lower grades, so that more time may be given to the individual pupil. Here again, growth makes a difference because it seems impossible to hire as many teachers as we would like in any given year, since we must meet the needs of expansion at the lower levels - and, as this is being written, it would seem that these problems will become greater! In fact, industrial, population, and highway trends indicate continued rapid growth in Hooksett. None of us will be too far ahead in our planning!

Your fine support in meeting these problems is appreciated by all of us directly engaged in educating your children.

Respectfully submitted,

C. MAURICE GRAY

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

August 17, 1964

The School Board
Hooksett School District
Hooksett, New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Hooksett School District for the fiscal year ended June 30, 1964, which was made by this Division in accordance with the vote of the District. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board and the School District Treasurer.

FINANCIAL STATEMENTS

Comparative Balance Sheets: (Exhibit A)

Comparative Balance Sheets as of June 30, 1963 and June 30, 1964 are presented in Exhibit A. As indicated therein, the Current Surplus June 30, 1963 of \$4,466.88 changed to a deficit of \$2,423.40 during the fiscal year ended June 30, 1964, as shown herewith:

	June 30, 1963	June 30, 1964
<u>Total Assets</u>	\$23,017.53	\$ 9,302.67
<u>Current Liabilities</u>	18,550.65	11,726.07
<u>Current Surplus or (Deficit)</u>	\$ 4,466.88	(\$ 2,423.40)
	<u>=====</u>	<u>=====</u>

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial condition of the School District during the fiscal year is made in Exhibit B, with the factors which caused the change indicated therein.

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended June 30, 1964, are presented in Exhibits C and D. As indicated by the Budget Summary (Exhibit D), a Revenue Surplus of \$1,552.71 less a net overdraft of appropriations of \$1,512.67, resulted in a net budget surplus of \$40.04.

Summary Statement of Receipts and Expenditures: (Exhibit E-1)

A summary statement of receipts and expenditures for the fiscal year ended June 30, 1964, made up in accordance with the uniform classification of accounts, is included in Exhibit E-1. Proof of the Treasurer's balance as of June 30, 1964, is indicated in Exhibit E-2.

Statement of School Lunch Account: (Exhibit F)

A statement of the receipts and expenditures of the School Lunch account is included in Exhibit F.

Statement of Building Fund Account: (Exhibit G)

A statement showing the activity in the Building Fund account during the fiscal year ended June 30, 1964, is included in Exhibit G.

Statement of Long Term Indebtedness: (Exhibit H)

A statement of the outstanding long term indebtedness of the School District, as of June 30, 1964, showing annual debt service requirements, is contained in Exhibit H.

Statement of School Tax Account: (Exhibit I)

Exhibit I presents a statement of the School District Tax account with the Town of Hooksett. As indicated therein, as of June 30, 1964, the School District had received from the Town the total amount of the 1963-64 School Tax.

GENERAL COMMENTS

Overdraft of Appropriations and Application of Municipal Budget Law:

It is noted that in the fiscal year ended June 30, 1964, there was a net overdraft of appropriations amounting to \$1,512.67. In other words, total expenditures exceeded total appropriations by this amount as shown herewith:

Overdraft of Appropriations	\$11,625.25
Unexpended Balances of Appropriations	<u>10,112.58</u>
Net Overdraft of Appropriations	<u>\$ 1,512.67</u>

In accordance with the provisions of the Municipal Budget Law (R.S.A. Chapter 32), whenever occasion arises whereby it becomes necessary to exceed budgetary appropriations, application should be made to the State Board of Education by the School Board, with the approval of the Budget Committee, for a certificate of emergency authorizing such expenditures to be made in excess of appropriations.

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the School District.

We extend our thanks to the officials of the Hooksett School District for their assistance during the course of the audit.

Yours very truly,

Harold G. Fowler

Certificate of Audit

This is to certify that we have examined and audited the accounts of the Hooksett School District for the fiscal year ended June 30, 1964. In our opinion, the Exhibits included herewith reflect the true financial condition of the School District on June 30, 1964, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Harold G. Fowler
Director

School Report

Underhill has bulk tank burning #4 oil. Installation of insulation in this school will alleviate overheating in summer and will save fuel.

Memorial has bulk tank burning #4 oil.

Village School has tank of about 2000 gallon capacity. It is recommended that this tank be replaced with one of 6830 gallon capacity using present fuel and vent lines; that area around fill pipe be sloped so water will drain; and it be paved so fill pipe would not be broken with plow, etc. This will enable this school to be combined with others having bulk tanks to get much lower prices on fuel.

It is recommended that the School Board inform principals and custodians that no articles of any kind be placed in front of radiation, including tables, chairs, etc. This adds considerable to the fuel bill and makes it difficult to heat area where this is done.

Respectfully submitted,

John Lucker
Marshall J. Rice
Roger E. Hebert

JOHN B. MULAIRE	Term expires 1966
EUCLID CADERETTE	Term expires 1967
ALFRED COLLERETTE	Term expires 1968
A. E. BEAUCHESNE	Term expires 1969

REPORT OF COMMISSIONERS

During 1964 a total of 1405 feet of new main was added to the system, as follows: In Linda Lane Development 425 feet of 8" cement asbestos pipe on Bert Street; In Pleasant View Terrace Development 150 feet of 8" cement asbestos pipe, with two 8"

Gate valves and one new Hydrant on Merrill Drive, and 250 feet of 6" cement asbestos pipe on Ray Drive; and in Birch Hill Drive Development 580 feet of 6" cement asbestos pipe, with one 6" gate valve on Donald Street. All of such extension work was performed and paid for by the Developer, under supervision of the Precinct and all work was guaranteed in writing. In addition a total of 28 new services were added during the year.

The Precinct's water supply continues to be adequate for the Precinct's needs, both present and the foreseeable future, but the extremely rapid growth of the system, 67 new services in the past three years, has made the pumping system inadequate. The Commissioners have therefore, after careful study and consultation with the Precinct's engineer, inserted in this year's warrant an Article requesting the voters to authorize the expenditure of \$33,000.00 to purchase a pump of larger capacity than the present one and to make necessary changes in the pumping station to accommodate the larger pump.

STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE HOOKSETT VILLAGE WATER PRECINCT IN THE TOWN OF HOOKSETT AND COUNTY OF MERRIMACK IN SAID STATE, QUALIFIED TO VOTE IN SAID PRECINCT AFFAIRS:

You are hereby notified to meet at the Odd Fellows Hall in said Hooksett on Saturday the 20th day of March next, at two o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Water Commissioner for the ensuing five years.
4. To choose a Treasurer for the ensuing year.
5. To raise such sums of money as may be necessary to defray Precinct charges for the ensuing year and make appropriations of the same.
6. To see if the Precinct will vote to authorize its Board of Water Commissioners to replace the present pump with one of greater capacity and to make such other changes in the pumping station and equipment as shall be required by such replacement; and to see if the Precinct will vote to authorize its Water Commissioners to borrow a sum of money not to exceed Thirty-three Thousand (\$33,000.00) Dollars, on the credit of the Precinct, by the issue of serial bonds or notes under the provisions of RSA 33: for this purpose; and to determine the time and place of payment and the form of said bonds or notes, and the rate of interest thereon, and to provide for the sale thereof. (Approved by Town Budget Committee)

7. To transact any other business that may legally come before said meeting.

The Polls will close at 4 P. M. The Warrant will be discussed at 7 P. M.

Given under our hands and seal this 10th day of February in the year of our Lord nineteen hundred and sixty-five.

SUMMARY OF FINDINGS AND RECOMMENDATIONS

February 17, 1965

Board of Commissioners
Hooksett Village Water Precinct
Hooksett, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Hooksett Village Water Precinct for the fiscal year ended December 31, 1964, which was made by this Division in accordance with the vote of the Precinct. Exhibits as hereafter listed are included as part of the report.

FINANCIAL STATEMENTS

Comparative Balance Sheets: December 31, 1963 - December 31, 1964: (Exhibit A)

Comparative Balance Sheets as of December 31, 1963 and December 31, 1964, are presented in Exhibit A. As indicated therein the Net Debt decreased by \$6,785.51 in 1964.

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial condition of the Precinct during the year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

Decrease in Net Debt

Bonds and Notes Paid	\$9,000.00	
Net Budget Surplus	2,602.39	
Increase in Water Rents Receivable	<u>239.95</u>	\$11,842.34

Increase in Net Debt

Pinnacle Park Project Agreement Liability not Previously Recorded	\$2,981.97	
Surplus Used to Reduce Tax Rate	<u>2,074.86</u>	5,056.83
Net Decrease		<u>\$ 6,785.51</u>

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1964, are presented in Exhibits C and D. As indicated by the budget summary (Exhibit D), a revenue surplus of \$1,878.30, plus a net unexpended balance of appropriations of \$724.09, resulted in a net budget surplus of \$2,602.39.

Summary Statement of Receipts and Expenditures: (Exhibit E)

A summary statement of receipts and expenditures of the Precinct for the fiscal year ended December 31, 1964, and proof of the Treasurer's balance, is included in Exhibit E.

Statement of Long Term Indebtedness: (Exhibit F)

A statement of the outstanding long term indebtedness of the Precinct as of December 31, 1964, showing annual debt service requirements, is contained in Exhibit F.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) decreased by \$2,214.49, from \$2,299.40 to \$84.91, in 1964, as shown herewith.

	<u>December 31, 1963</u>	<u>December 31, 1964</u>
<u>Total Assets</u>	\$7,272.79	\$9,771.99
<u>Current Liabilities</u>	<u>4,973.39</u>	<u>9,687.08</u>
<u>Current Surplus</u>	<u>\$2,299.40</u>	<u>\$ 84.91</u>

Capital Reserve Fund:

It is again recommended that the Capital Reserve Fund be turned over to the Trustees of Trust Funds to remain in their custody in accordance with the provisions of RSA 35:10.

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report.

We extend our thanks to the officials of the Hooksett Village Water Precinct for their assistance during the course of the audit.

Yours very truly,

Harold G. Fowler, Director
DIVISION OF MUNICIPAL
ACCOUNTING - STATE TAX
COMMISSION

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Hooksett Village Water Precinct for the fiscal year ended December 31, 1964. In our opinion, the Exhibits included herewith reflect the true financial condition of the Precinct as of December 31, 1964, and the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Harold G. Fowler, Director
DIVISION OF MUNICIPAL ACCOUNTING

Report Of Central Hooksett Water Precinct

FOR YEAR ENDING DECEMBER 31, 1964

SUPPLY & DISTRIBUTION

This year was even more critical than last for all types of water supplies in this general section. The prolonged drought (being some 8" in rainfall deficiency) really put the supply well at Scott's to a real test.

The maximum height of the water level in the well was 21' above the screen occurring on April 4, 1964 while the pump was running. This was 1' lower than in 1963.

The minimum water level while the pump was running reached a low of 7' above the screen on October 22, 1964.

The pump capacity is still approximately 130 gpm. and the pump ran for 4,654 hours during the year.

The total water pumped during 1964 was 37,980,900 gallons representing a 10% increase over last year.

The daily average has climbed to 104,000 gallons per day.

The minimum 7 - day average (Dec. 29 to Jan. 4) was 64,700 gallons per day.

The maximum 7 - day average (June 19 to 26) was 198,000 gallons per day.

There are now a total of 175 customers connected to this system.

The Board adopted the policy of installing meters in the flat rate private residences - to be completed in three years. This will provide a more equitable consumer charge as well as conserving and eliminating the waste of water.

Routine distribution maintenance work was performed during the year. Additional test well exploration N.E. of the present well site and other sections of Manchester Sand & Gravel property was made by the R. E. Chapman Well Co.

EXTENSIONS

An extension of 478' of 8" CA pipe was laid to the Berry property otherwise known as "Brookside Acres", located northerly from White Hall Road.

A 2" service was laid to provide service to the Cemetery at Martin Ferry Road.

WATER TREATMENT

Methods to control the acidity of the water were undertaken. Tests showed that liquid caustic soda injected in the pump house discharge line at the rate of 50 ppm. would raise the pH from 5.3 to 8.5. This neutralizes the water, thus eliminating the corrosion of some metals.

Ralph W. Page, Superintendent
Central Hooksett Water Precinct

CENTRAL HOOKSETT Water Precinct well site, pumping station and maintenance garage.

STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE CENTRAL HOOKSETT WATER PRECINCT IN THE TOWN OF HOOKSETT AND COUNTY OF MERRIMACK IN SAID STATE QUALIFIED TO VOTE IN SAID PRECINCT:-

You are hereby notified to meet at the Underhill School in said Hooksett on Wednesday the 10th day of March next, at seven thirty o'clock in the evening, to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Water Commissioner for the ensuing five years.
4. To choose a Treasurer for the ensuing year.
5. To raise such sums of money as may be necessary to defray Precinct charges for the ensuing year and make appropriations of the same.
6. To see if the Precinct will vote to establish a Capital Reserve Fund to be used to finance new construction and Capital Improvements to the Precinct's water system; and to authorize the Water Commissioners to transfer the sum of Ten Thousand (\$10,000.00) Dollars from the Precinct's Repair and Replacement Fund to said Capital Reserve Fund.
7. To see if the Precinct will vote to authorize the Water Commissioners to expend from the Precinct's Capital Reserve Fund the sum of Five Thousand (\$5,000.00) Dollars in part payment of the money appropriated in the 1965 Budget for Test Wells and Meters.
8. To see if the Precinct will vote to rescind Article 7 in the 1964 Warrant, pertaining to the establishment of a Capital Reserve Fund for the painting of the Stand-pipe; and to authorize the Water Commissioners to transfer the balance of that Fund to the Precinct's Repair and Replacement Fund.
9. To see if the Precinct will vote to amend Article 9 of the 1962 Warrant, pertaining to the establishment of the Precinct's Repair and Replacement Fund, by adding the words "including the maintenance and painting of the Stand-pipe" to the purpose for which this fund may be used, so that the authorization of said

Fund will read as follows: To be used to finance major repairs to, or replacements of, the Precinct's property and equipment, including the maintenance and painting of the Stand-pipe, said fund to be deposited in some savings bank in the name of the Precinct; -and to authorize the Board of Water Commissioners to withdraw and expend money from said fund for such repairs and replacements wherever they shall be necessary to provide adequate water to the Precinct's customers for fire protection, and domestic purposes.

10. To transact any other business that may legally come before said meeting.

Given under our hands and seal this tenth day of February, in the year of our Lord nineteen hundred and sixty-five.

BUDGET COMMITTEE

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

February 17, 1965

Board of Commissioners
Central Hooksett Water Precinct
Hooksett, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Central Hooksett Water Precinct for the fiscal year ended December 31, 1964, which was made by this division in accordance with the vote of the Precinct. Exhibits as hereafter listed are included as part of the report.

FINANCIAL STATEMENTS

Comparative Balance Sheets - December 31, 1963-December 31, 1964: (Exhibit A)

Comparative Balance Sheets as of December 31, 1963 and December 31, 1964, are presented in Exhibit A. As indicated therein, the Net Debt decreased by \$7,366.74 in 1964.

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial condition of the Precinct during the year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

<u>Decrease in Net Debt</u>		
Bonds Paid	\$7,000.00	
Net Budget Surplus	<u>2,911.40</u>	
		\$9,911.40
<u>Increase in Net Debt</u>		
Surplus Used to Reduce Tax Rate	<u>2,544.66</u>	
<u>Net Decrease</u>	<u>\$7,366.74</u>	

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1964, are presented in Exhibits C and D. As indicated by the budget summary (Exhibit D), a revenue surplus of \$2,114.84, plus a net unexpended balance of appropriations of \$796.56, resulted in a net budget surplus of \$2,911.40.

Summary Statement of Receipts and Expenditures: (Exhibit E)

A summary statement of receipts and expenditures of the Precinct for the fiscal year ended December 31, 1964, and proof of the Treasurer's balance, is included in Exhibit E.

Statement of Long Term Indebtedness: (Exhibit F)

A statement of the outstanding long term indebtedness of the Precinct as of December 31, 1964, showing annual debt service requirements, is contained in Exhibit F.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) increased by \$366.74, from \$19,922.20 to \$20,288.94, in 1964, as shown herewith:

	<u>Dec. 31, 1963</u>	<u>Dec. 31, 1964</u>
<u>Total Assets</u>	\$19,922.20	\$20,288.94
<u>Current Liabilities</u>	<u>-0-</u>	<u>-0-</u>
<u>Current Surplus</u>	<u>\$19,922.20</u>	<u>\$20,288.94</u>

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report.

We extend our thanks to the officials of the Central Hooksett Water Precinct for their assistance during the course of the audit.

Yours very truly,

Harold G. Fowler
Director
DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION

Lionel J. DeGrace, Auditor

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Central Hooksett Water Precinct for the fiscal year ended December 31, 1964. In our opinion, the Exhibits included herewith reflect the true financial condition of the Precinct as of December 31, 1964, and the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Harold G. Fowler
Director
DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION
